

# Easy PP-E

| PP-E              |      | A      | B Aprox. | C     |
|-------------------|------|--------|----------|-------|
| A= 600,601...1000 | Mín. | A - 12 | A - 60   | B ÷ 2 |
|                   | Máx. | A + 13 |          |       |

Ejemplo / Example:

**A= 750**

A Mín=  $750 - 15 = 735$     B Aprox.=  $750 - 60 = 690$     C=  $690 \div 2 = 345$

A Máx=  $750 + 15 = 765$
