

Hand sanitizer bottle not included

HGPT0050B
Matte black finish

General description

- Touch free hand-sanitizer dispenser station, pedal operated, made of steel and painted in an elegant black epoxy plastic paint.
- This hand-sanitizer dispenser station helps to prevent the spread of viruses by providing hydroalcoholic gel through a touchless mechanical pedal dispenser.
- Fully stable on its own, requires no installation and is extremely robust and vandal-proof.
- Suitable for use with most standard push-button hydroalcoholic gel bottles of the following dimensions:
 - Maximum diameter: 95 mm
 - Height: between 140 and 330 mm
- This hand hygiene point is essential in public spaces such as train and metro stations, airports, shopping malls, schools, universities, hospitals, doctors' offices, nursing homes, communities and, overall, in publicly accessible locations where hand disinfection is required.
- A hand sanitizing procedure sign explaining how to disinfect your hands correctly, reducing the spread of germs is clearly featured at the front.
- The Mediclinics portable hand sanitizing station helps to keep a more hygienic, cleaner and healthier workplace. Suitable for any environment.

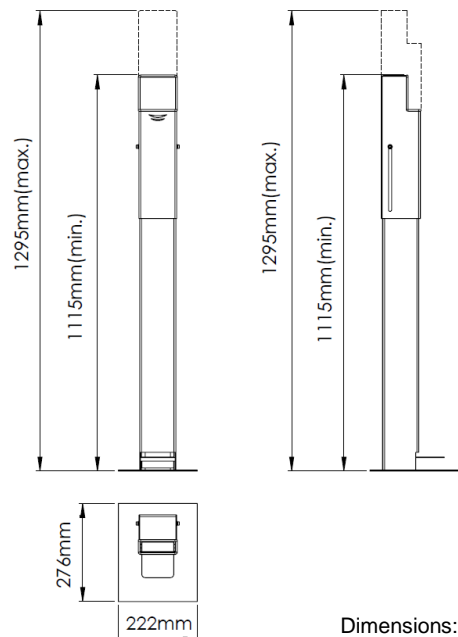

Components and materials

- **FLOOR BASE PLATE:** square, made of steel, 3mm thick, matte black epoxy finish. Designed to provide maximum stability to the entire station without the need of floor installation.
- **COLUMN:** made of 1.2mm thick steel plate, finished in matte black epoxy. Welded to the base.
- **HEAD:** adjustable height, made of 1.2 mm thick steel plate, finished in matte black epoxy. Attached to the column with two screws and two washers. A hand sanitizing procedure sign made of vinyl is displayed at the front.
- **PEDAL:** made of 2 mm thick steel plate, finished in matte black epoxy. In its two lower corners it has two drops of silicone, as a stop that prevents the base from being scratched.
- **ASSEMBLY TOOLING:** includes 2 vandal-proof screws, 2 nuts and 1 Hex Key for the head dispenser attachment to the column. **No extra tooling is needed to install the hand-sanitizer dispenser.**

Technical Specifications
