

INTERNAL STRENGTH TEST

ITEM B-1400 NODO

Testing date 17.05.2022
Production batch dated 12.05.2022

BRIEF TEST DESCRIPTION

Dynamic test, furniture fatigue. A load of 55 kg is placed on the seat and a force perpendicular to the back lifts the front legs 50 mm above the floor and the furniture is dropped.

This procedure is repeated 10000 times with frequency 25 times per minute with no intervals.

Number of cycles	REMARKS
1 - 1000	NO CHANGES
1001 - 2000	NO CHANGES
2001 - 3000	NO CHANGES
3001 - 4000	NO CHANGES
4001 - 5000	NO CHANGES
5001 - 6000	NO CHANGES
6001 - 7000	NO CHANGES
7001 - 8000	NO CHANGES
8001 - 9000	NO CHANGES
9001 - 10000	NO CHANGES

Test finished on 10000 cycles

Result: No visible changes in furniture construction
