WARNING
This flashlight is a high-intensity lighting device capable of causing eye damage to its users or others. Avoid shining the flashlight directly into anyone's eyes.

(中/英)FENIX PD36 TAC说明书
● 最高亮度3000流明，射程距离274米
● 内置Luminus SST70 LED，寿命50000小时

技术参数 table. Includes a detailed technical specifications table with Chinese column headers and a battery specifications section.

使用与维护
● 请勿直视激光发射器，否则可能会导致失明和永久性视力损伤。
● 请勿使用汽车电池，并应避免长时间将锂电池从灯具中取出。

开关说明
在战术模式下，轻触尾部开关时光亮会变亮，长按即可熄灭。
长按（按住约2秒）尾部开关可以切换战术模式，再长按即可切换至战术模式。

故障排除
故障原因：轻触尾部开关无效，重触尾部开关无效/高亮。
故障原因：重触尾部开关无效/高亮，长按尾部开关无效/高亮。

警告
● 请勿直视激光发射器，直视激光可能会导致失明和永久性视力损伤。
● 请勿使用汽车电池，并应避免长时间将锂电池从灯具中取出。

低电压警告
当电池电压降至预设水平以下时，设备将在亮度降低前30秒发出蜂鸣声，提醒用户及时充电或更换电池。

电池管理
定期检查并适当清洁您的设备。请勿在高温或低温环境下使用设备，因为极端温度会降低设备的使用寿命。

包装清单
PD36 TAC手电，AR-B12-5000U 可充电锂离子电池，布套，备用锂电池，用户手册，说明书，保修卡。

(ITALIAN)TORCIA FENIX PD36 TAC
● 3000 lumens di potenza massima, Distanza massima del fascio di 274 metri.
● Un LED Luminus SST70 LED con una durata di 50.000 ore.

PARAMETRI TECNICI table. Similar to the English version, listing technical specifications for tactical and duty modes.

la torcia è programmata per passare a un livello di luminosità inferiore fino all'aggiustamento della luce. Quando questo accade, il sistema di illuminazione a 3 volte ogni 5 minuti per ricordarti di ricaricare o sostituire la batteria.

Con la luce accesa e spenta, toccare l'interruttore tattico della coda per accendere momentaneamente la luce.
Tenere premuto l'interruttore tattico della coda per accendere costantemente la luce (modo di Eco).

Specifiche batteria
Tipo: Fenix AR-B12-5000U, Fenix AR-B12-4000P
Dimensioni: 21700, 3.6V, Prestazione: Attenzione

SOSTITUZIONE DELLA BATTERIA
Scegliere il tipo della pila con cui inserire la batteria con il tipo dell'attacco (*) verso la testa della luce, quindi rinvolvere il tappeto con il dito.

(JAPANESE)FENIX PD36 TAC ランタ flashlight
● 最大出力3000lm、照射距離最大274m
● LED素子: Luminus SST70 LED (寿命50,000時間)

仕様 table. Includes technical specifications, battery specifications, and usage instructions in Japanese.

低電圧警報機能
当電圧が一定レベルを下回ると、LEDへの電流を30秒間停止し、その後再び流すことで、ユーザーに充電または電池交換を促します。

(FRENCH)LAMPE TORCHE FENIX PD36 TAC
● Puissance maximale de 3000 lumens, portée maximale de 274 mètres.
● LED Luminus SST70 avec une durée de vie de 50 000 heures.

PARAMETRES TECHNIQUES table. Lists technical specifications for tactical and duty modes in French.

UTILISATION ET ENTRETIEN
● Débranchez la pile, qui est scellée, de la lampe grâce de l'endossement et retirez-la avec précaution.
● Fenix recommande d'utiliser une batterie de qualité.

(RUSSIAN)ФОНАРЬ FENIX PD36 TAC
● Максимальная яркость 3000 люменов, максимальная дальность маяка 274 метра.
● Светодиод Luminus SST70 со сроком службы 50 000 часов.

ТЕХНИЧЕСКИЕ ХАРАКТЕРИСТИКИ table. Lists technical specifications for tactical and duty modes in Russian.

Эксплуатация и уход
● При выключенном источнике света, кратковременно нажмите кнопку переключения и подсветки фонаря, а также кнопку блокировки на корпусе.
● Если лампа не горит, удалите батарейку из фонаря.

(SPANISH)LINTERNA FENIX PD36 TAC
● Potencia máxima de 3000 lúmenes. Distancia máxima de haz de 274 metros.
● LED Luminus SST70 con una vida útil de 50.000 horas.

PARAMETROS TECNICOS table. Lists technical specifications for tactical and duty modes in Spanish.

USO Y MANTENIMIENTO
● Desmonte el recubrimiento del estribo cuando se vaya a cambiar la batería.
● Fenix recomienda utilizar una batería de excelente calidad.

(GERMAN)FENIX PD36 TAC TASCHENLAMPE
● Max. 3000 Lumen / up to 274 Meter Reichweite.
● Lumen SST70 LED mit 50.000 Stunden Lebensdauer.
