**EXPLICACION DEL MODELO**

Con Moon, Rafa García ha ideado un diseño con un ADN 100% modular. A Moon le podemos pedir la Luna. Partiendo de 3 brazos, 5 módulos de diferentes medidas y un puf, su componibilidad es infinita. Módulo a módulo podemos reconstruir el espacio, por ello este diseño se convierte en la pieza ideal para cualquier proyecto de contract, para cualquier necesidad.

Moon se puede tapizar tanto en tela, piel o piel sintética.

Las patas son de madera de haya lacadas o tintadas.

IMPORTANTE

Estructura tapizada fija, no desenfundable.

El nexo entre diferentes módulos se realiza mediante una pata central de 2,5cm de ancho, que hay que sumar a la medida total del conjunto. Los brazos ya incorporan esta pata de unión en su medida total (ver técnico). El ángulo y el puf no se pueden unir al brazo. La unión entre módulos y ángulo se realiza mediante carracas.

Las solicitudes de composiciones modulares deben adjuntar un plano en planta al realizar el pedido. La mano (derecha/izquierda) se interpreta siempre viendo el dibujo de frente.

Por favor, indique en el pedido la opción de acabado deseada para las patas (muestras para haya tintado o lacados).

CARACTERISTICAS TECNICAS**TELA Y PIEL**

- Estructura de madera forrada en espuma CMHR 30kg de 13mm.
- Bastidor de asiento preparado con cincha NEA de 80mm y espuma CMHR 35kg, con una parte superior en CMHR 30kg.
- Respaldo preparado con DM, espuma CMHR 30kg y la parte superior en densidad 40kg.
- Patas de madera de haya lacadas o tintadas.

DESCRIPTION

With the Moon, Rafa García has created a design with modularity in its DNA; three arms, five modules with different measurements and a pouf enable endless combinations. Module by module, one can redefine a space, making this design an ideal piece for any demanding project.

The product is available in fabric, leather or synthetic leather.

The beech legs can be stained or lacquered.

IMPORTANT

Fixed covers.

The modules are joined by wooden legs with a width of 2.5 cm, which must be added to the total measurement of the set. The arms already incorporate this joining leg in their total measurement. The straight corner and pouf cannot be joined to an arm. Modules are joined to straight corners by ratchets.

Orders for modular combinations **must include a plan**. Left and right are interpreted as if facing the sofa.

Please state the desired finishing option for the legs on your order (stained or lacquered beech.)

CARACTERISTIQUES

Rafa García a créé un programme de canapés dont l'ADN est 100% modulable.

Les compositions sont infinies grâce à ses 3 bras, 5 modules de différentes dimensions et 1 pouf. Module après module, nous pouvons construire un espace, ce qui rend Moon idéal pour tous vos projets professionnels ou privés.

Disponible en tissu, cuir ou cuir synthétique.

Pieds en hêtre laqués ou teintés.

IMPORTANT

Structure fixe non déhoussable.

La jonction entre différents modules se fait à l'aide d'un pied central de 2,5cm de large, qu'il faut additionner au total de la dimension de l'ensemble des modules. Les bras incorporent déjà ce pied d'union dans leur dimension totale (voir détail technique). L'angle et le pouf ne peut pas être uni aux bras. Le lien entre les modules et l'angle se fait par visserie.

Toute commande d'ensemble modulable doit être accompagnée d'un plan se lisant toujours vue de face.

Ne pas oublier non plus d'indiquer le type de finition désiré pour les pieds (teintes ou laqués).

TECHNICAL CHARACTERISTICS**FABRIC AND LEATHER**

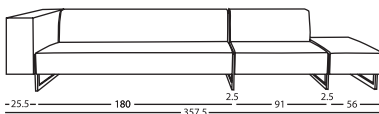

- Wooden structure covered in 13mm CMHR 30kg foam.
- Seat structure fitted with 80mm NEA elastic webbing with CMHR 35kg and CMHR 30kg foam.
- MDF back covered with CMHR 30kg and 40kg foam.
- Beech wooden feet in a selection of stains or lacquers.

CARACTERISTIQUES TECHNIQUES**TISSU ET CUIR**

- Structure en bois recouverte de mousse CMHR 30kg de 13mm.
- Châssis d'assise préparé avec des sangles NEA de 80mm et mousse CMHR 35kg, avec partie supérieure en CMHR 30kg.
- Dossier en médium, avec mousse CMHR 30kg, avec partie supérieure en 40kg.
- Pieds en hêtre teintés ou laqués.

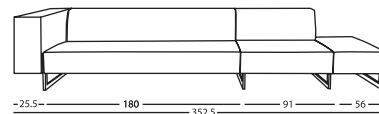

UNION MODULOS / MODULES CONNECTED / UNION DES MODULES

Opción 1: unión mediante pata central compartida, visible entre módulos / modules connected by feet visible between the seats / Union des modules par pied central partagé, visible entre les modules.

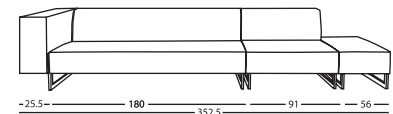

Este tipo de unión aumenta la medida de la composición en 2,5cm por pata.

Opción 2: unión mediante pata central compartida, NO visible entre módulos / Modules connected by feet that are not visible between the seats / Union des modules par pied central partagé, non visible entre les modules.

Opción 3: módulos unidos mediante carraca / Modules connected by a ratchet / Union des modules par pièce d'union.
