

Cooker hob Veronika 7063 052

Cooker hobs

Code: 7063 052

DETAILS

Supply 220-240 V; 50.60 Hz

Edge/Installation Type Standard (8 mm Edge)

Dimensions 440x500 mm

Base size 44cm

Heating element three burners

Built-in hole 420x480 mm

Grids Cast iron grids and enamelled burner covers

Material/Finish Foster-brushed finish AISI 304 stainless steel

Total power 5.850 W

Auxiliary 1.100 W

Semirapid 1.750 W

Rapid 3.000 W

Safety Safety valve with quick-acting thermocouple

Ignition Electric ignition under knob

Gas type Tested for installation with natural gas, LPG nozzle set included.

Type Gas Hob

FEATURES

Cast iron grids Cast-iron is the ideal material for an hob grid, this due to the manifold properties characterising it: high heat capacity that improves cooking performance; high weight and stability that improve safety; sturdiness that preserves the hob's original aspect over time; easy cleaning.

III series burners III ^ series burners: 20% gas savings. They guarantee an efficiency well above the European standards. Furthermore, the improved combustion of gas allows the development of higher powers. From the point of view of safety, the blocking system between the cover and the flame-spreader guarantees perfect positioning and greater ease of cleaning.

Safe cooking All Foster cooker hobs are equipped with safety valves. They shut off the gas supply very quickly if the flame accidentally goes out.

Under-knob ignition The utmost freedom of movement with electronic under-knob ignition, a common feature of all models that allows a one-hand ignition of the burner.
