OMBRA

_2015

design
Arkimera

Modello e design registrato, brevetto depositato
Registered model and design, patent filed

Gioca sul rapporto tra pieni e vuoti mettendo in luce l'importanza dell'assenza, sottolinea l'essenza del segno conferendogli la terza dimensione, si esprime attraverso un perimetro che si fa volume, nasce dalla forza dell'ombra disegnata sulla parete che "sfonda" la superficie, diventando utile ed elegante contenitore: OMBRA è uno spazio accessorio ottenuto grazie all'incasso di un profilo in alluminio verniciato che permette di creare un vuoto utilizzabile per il posizionamento di tutti gli oggetti e accessori che possono trovare posto nell'ambiente bagno.

Una piccola nicchia funzionale e attrezzabile che può anche essere illuminata, un piccolo palcoscenico domestico sul quale vanno in scena i riti quotidiani legati al benessere quotidiano. Per far questo, gli accessori in tondino metallico verniciato alle polveri e i vassoi in Flumood, trovano posto all'interno dello spazio, personalizzandone l'utilizzo in base alle proprie esigenze e permettendo di trasformarlo rapidamente. Il vano può assumere lo stesso colore della parete per rivelarsi solo da vicino o al contrario differenziarsi cromaticamente dalla superficie, per sottolinearne in modo più incisivo la profondità. Ombra si configura soprattutto come valido aiuto del progettista nella risoluzione architettonica del contenimento degli oggetti. Il sistema ha infatti una vocazione sartoriale: oltre alle misure standard sarà possibile averlo della lunghezza desiderata dal cliente. Disponibile nelle versioni bianca o nera.

A play on the relationship between solid and null, highlighting the importance of the absence is expressed through a perimeter that makes volume, stemming from the strength of the shadow drawn on the wall that breaks through the surface becoming a useful and elegant container: OMBRA is an accessory obtained from a collection of a painted aluminum profiles that allows you to create an empty space used for the positioning of all objects and accessories that can fit in the bathroom.

A small functional niche that can also be illuminated, a small domestic stage for everyday rituals. Lacquered metal rods and the trays in Flumood are placed inside the space to customize your needs. The compartment can have the same color of the wall or otherwise to emphasize depth for a more dramatic effect. Ombra is especially configured as a valid aid to the designer in the architectural resolution of accessorizing. The system has in fact a tailor vocation: in addition to the standard measures it will be possible in custom lengths. Available in black or white.

su richiesta è possibile realizzare la mensola nella lunghezza desiderata.
upon request it is possible to make the shelf in a customized length.

TABULA

_2016

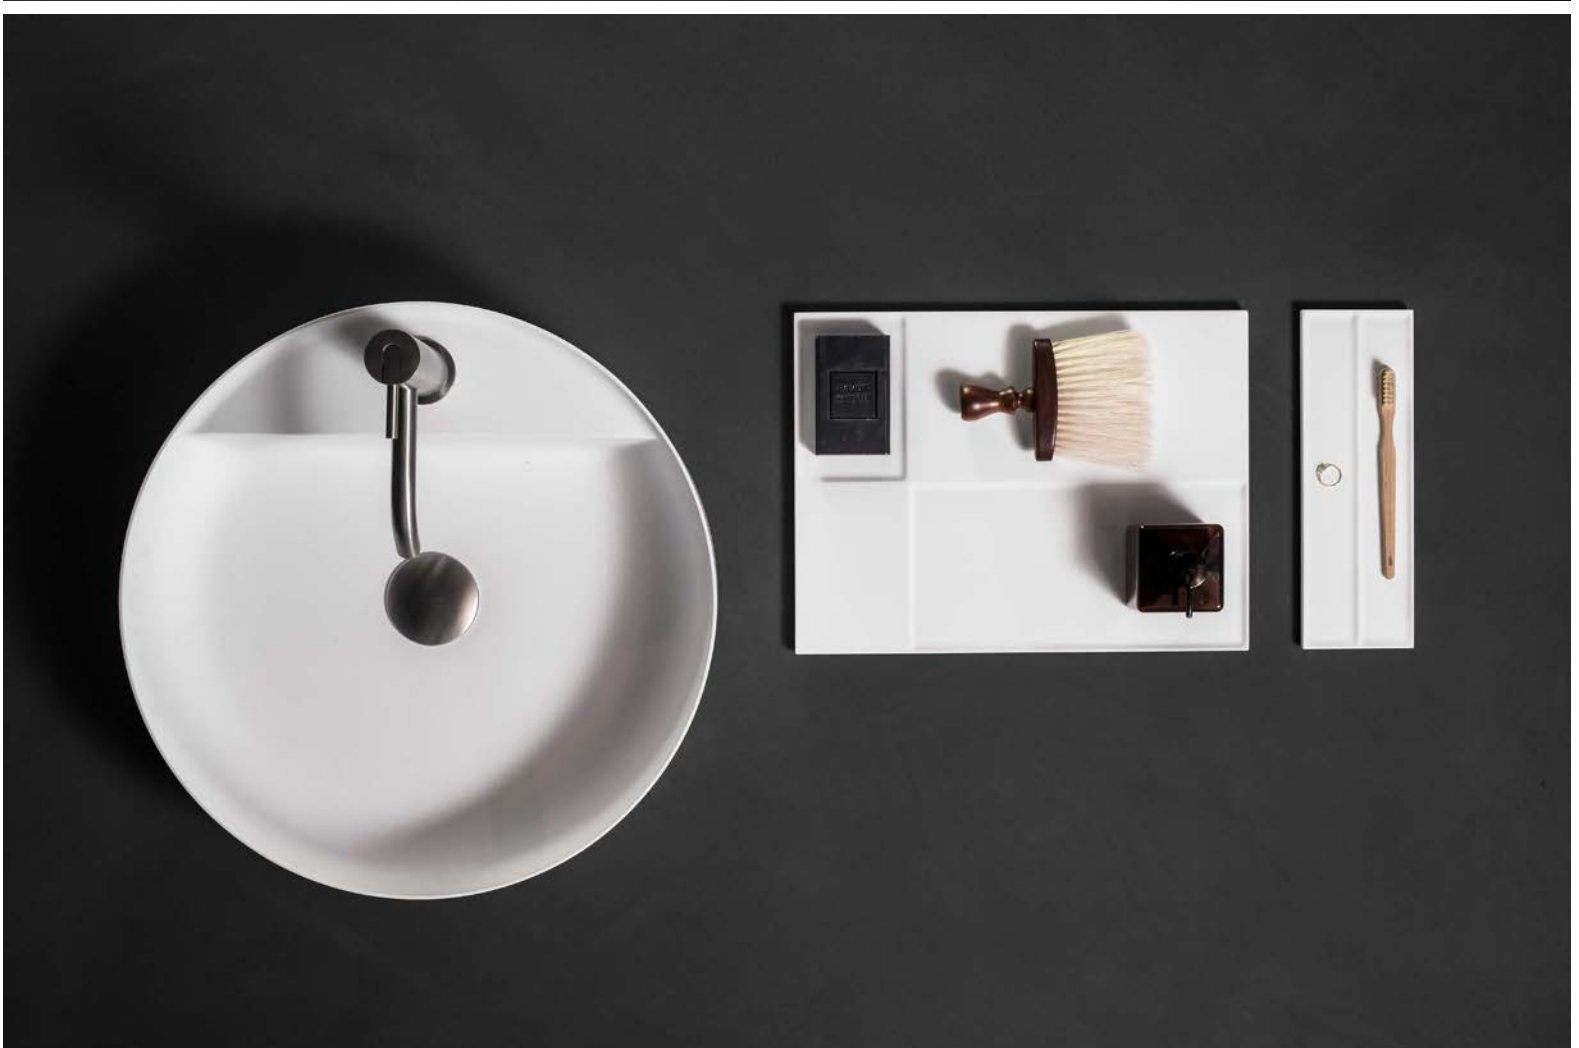

design
Mario
Ferrarini

Modello e design registrato, brevetto depositato
Registered model and design, patent filed

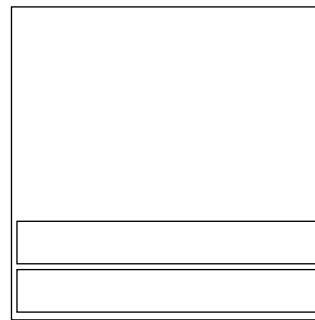

“In principio era Caos soltanto”, scrive Esiodo, poi finalmente è arrivata TABULA, una collezione di pianetti/vassoio in Flumood per organizzare gli oggetti di uso quotidiano in bagno e in qualunque altro ambiente. Componibile, trasportabile, multiuso, resistente agli urti, TABULA si integra e crea ordine, incorniciando e valorizzando gli oggetti.

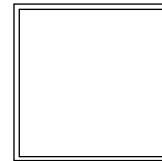

“In the beginning there was only Chaos”, Esiodo wrote, than TABULA finally arrived, a collection of trays made of Flumood to organize objects of everyday use in the bathroom or any other environment. Modular, portable, multipurpose, shock resistant, TABULA integrates and creates order, framing and enhancing objects.

SESAMO

_2012

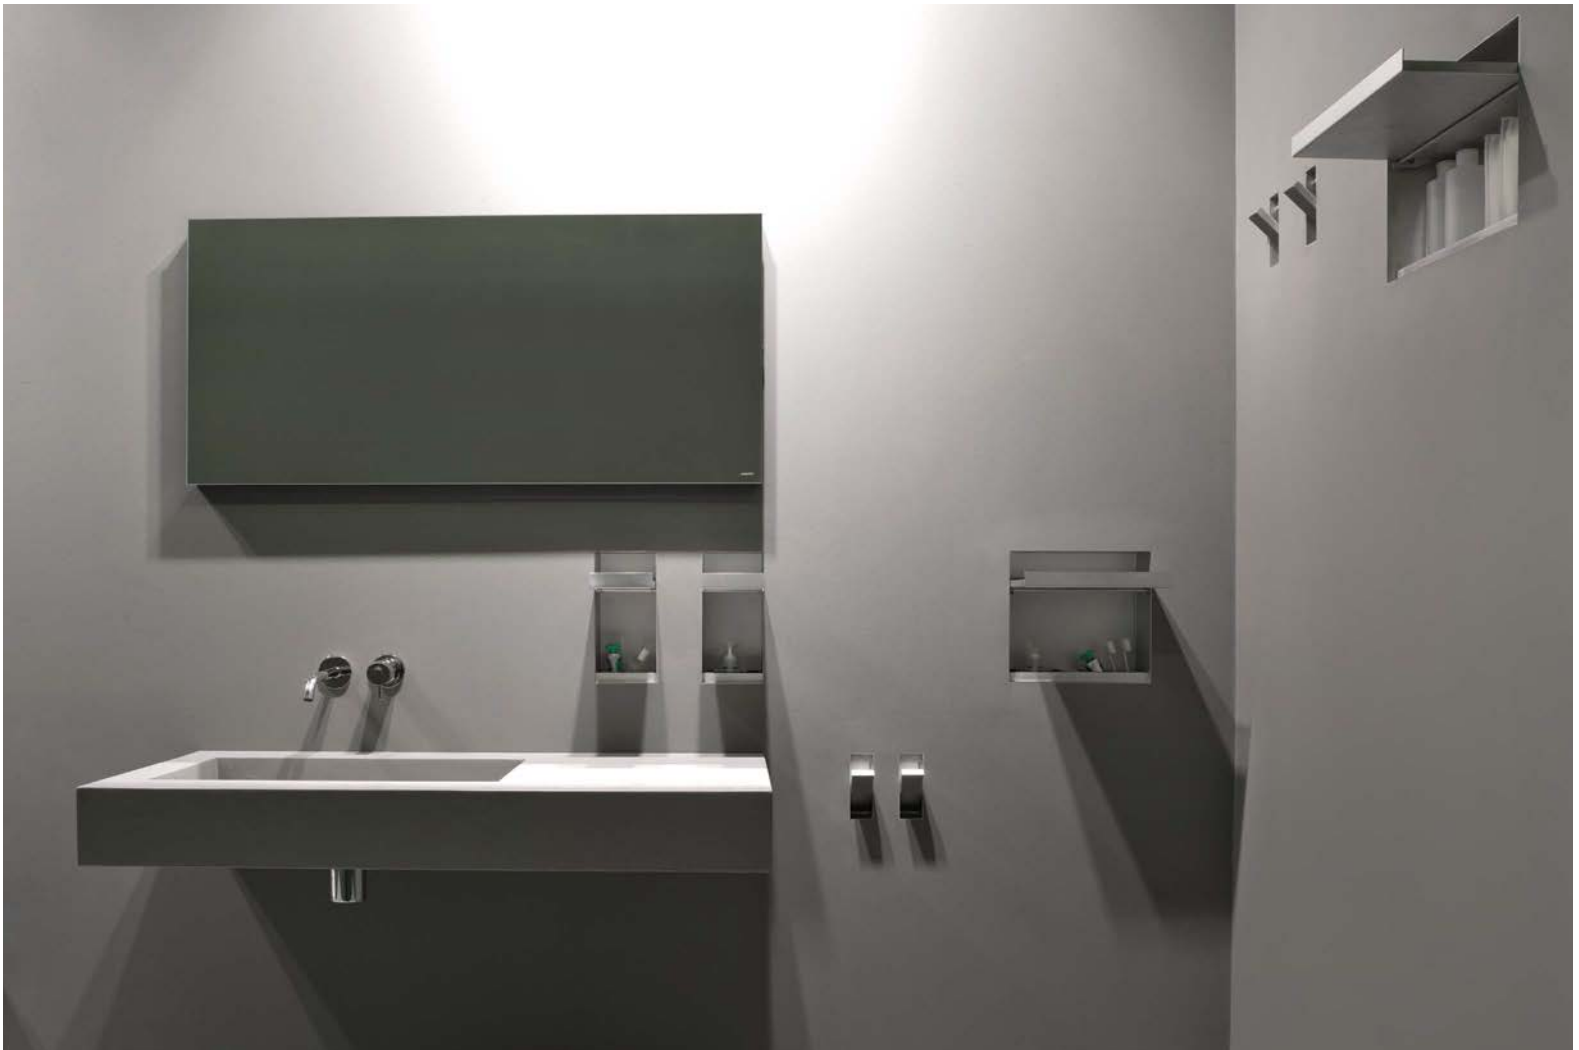

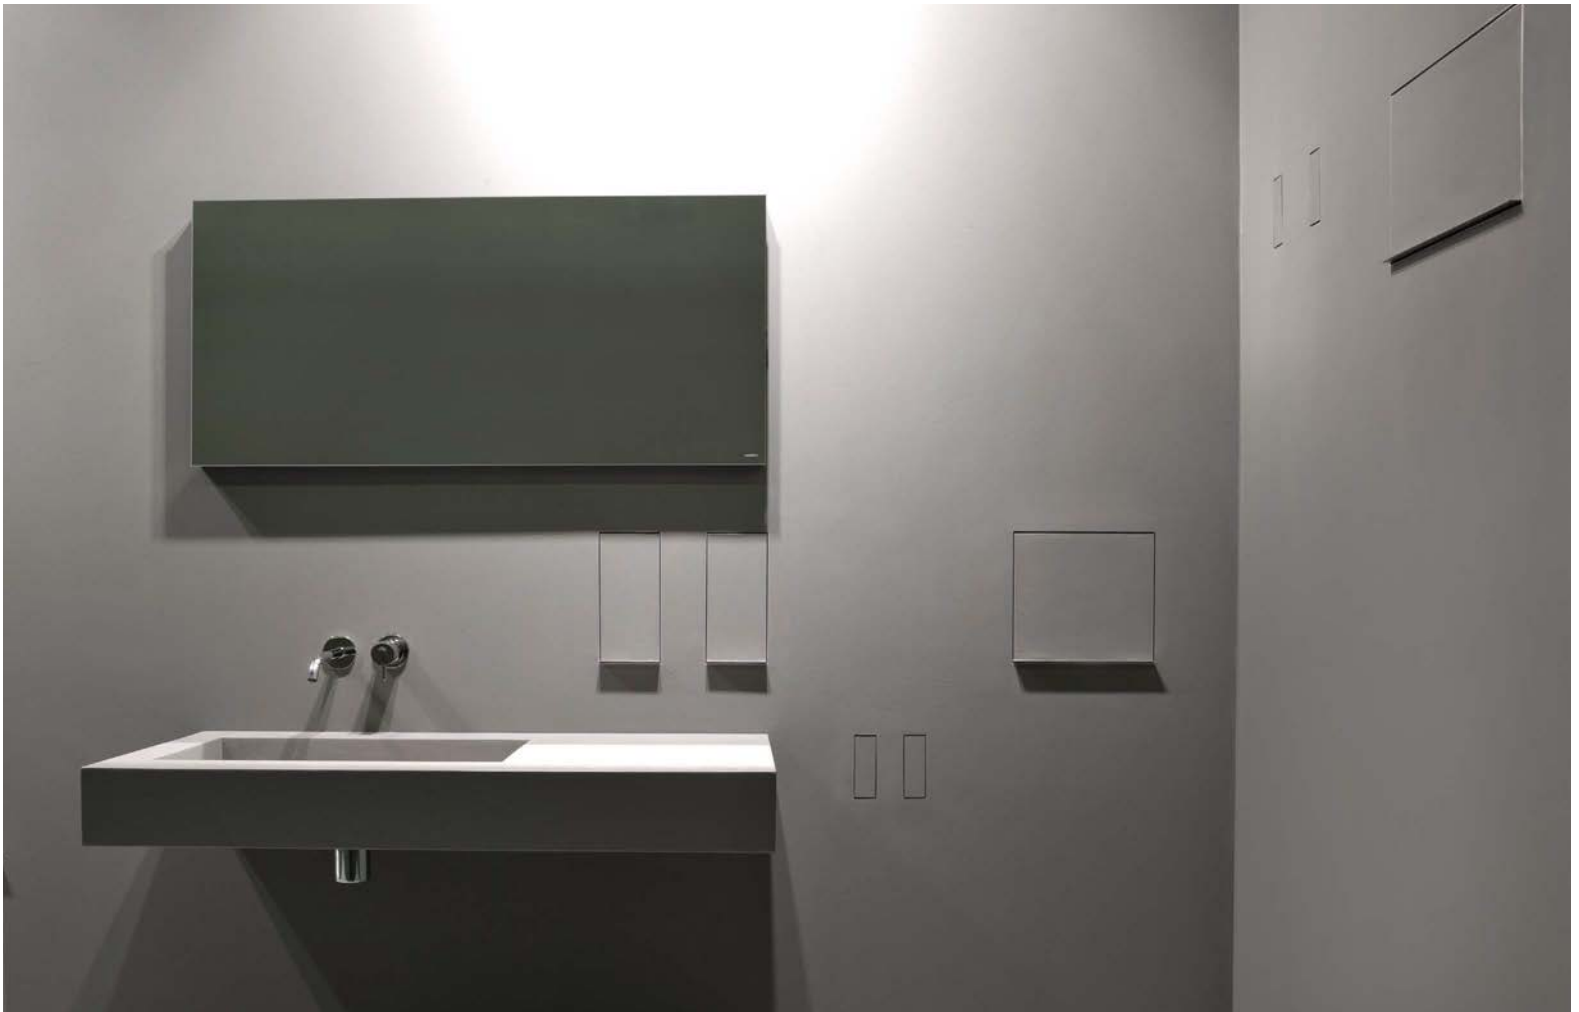

design
Arkimera

Modello e design registrato, brevetto depositato
Registered model and design, patent filed

Sesamo è una collezione innovativa che supera il concetto di accessori per il bagno in modo radicale, li mantiene invisibili per poi renderli disponibili al momento dell'utilizzo. Le nicchie sono realizzate in acciaio inox e possono essere rivestite con lo stesso materiale della parete. Nessun limite per il tipo di finitura, massima igiene e funzionalità.

Sesamo is an innovative collection that dramatically goes beyond the concept of bathroom accessories, making them invisible yet available only when necessary. The niches are made of stainless steel and can be coated with the same wall material. No limits to the type of finish, maximum hygiene and functionality.

SESAMO

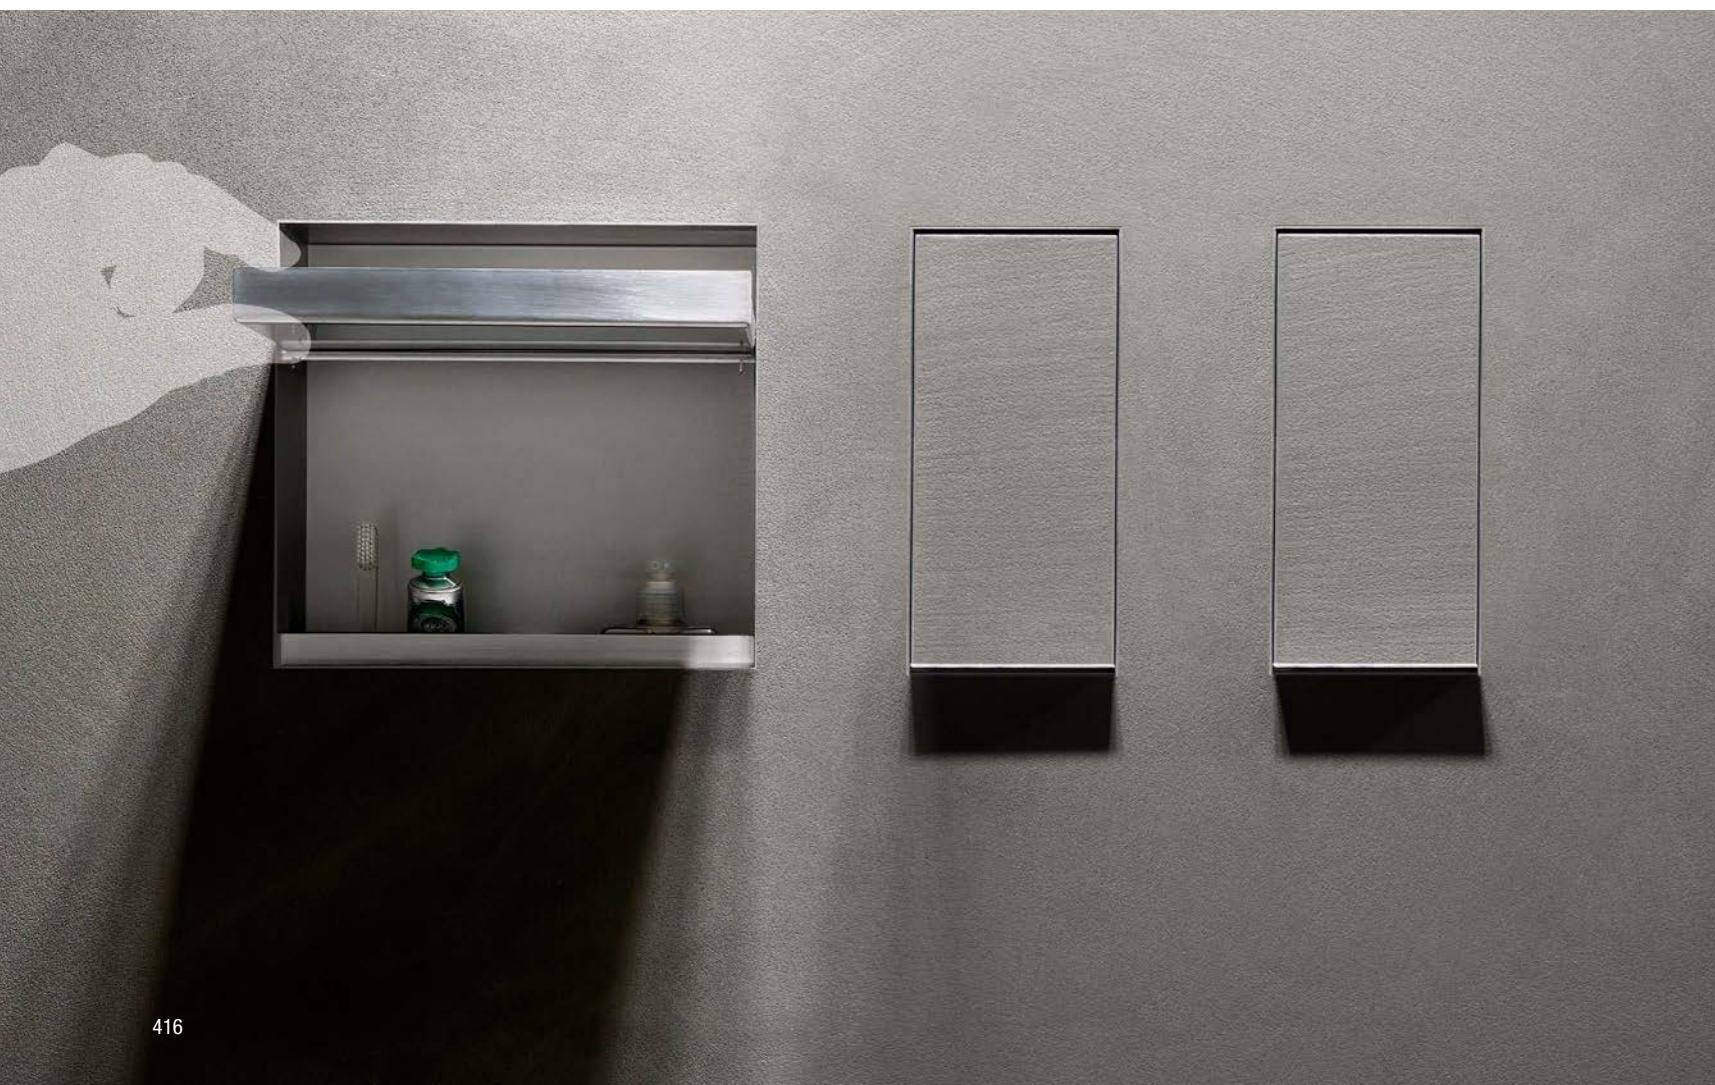

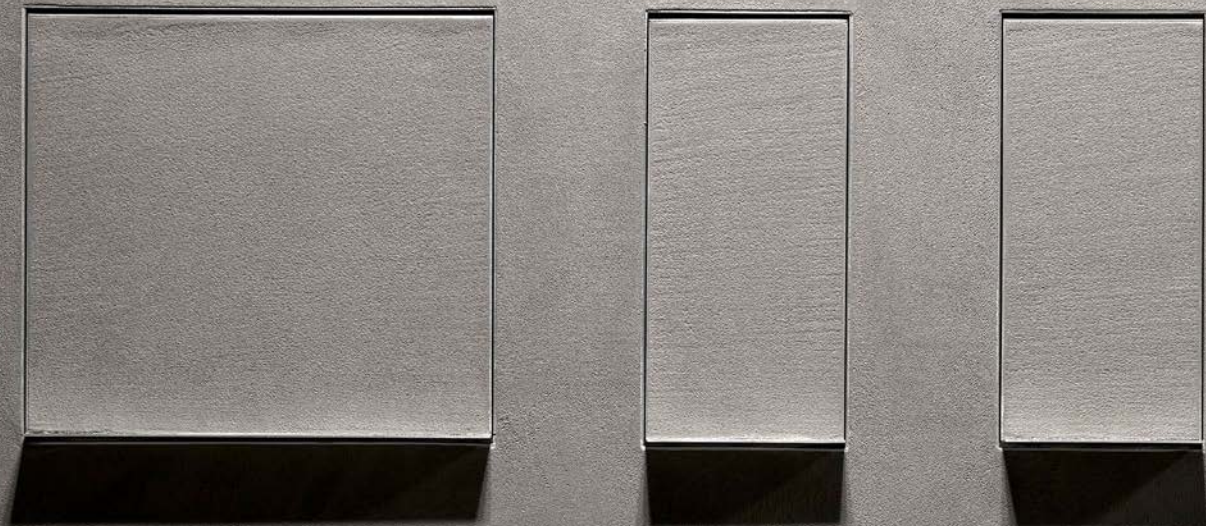

Spesso l'innovazione e la genialità si nascondono nelle cose semplici: Georges de Mestral inventò il velcro nel 1941 osservando, al ritorno da una gita in campagna, gli uncini sul calice dei fiori di bardana che erano rimasti attaccati alla sua giacca, Ruben Rausing utilizzando un sistema di rivestimento plastico della carta riuscì a renderla assolutamente impenetrabile all'aria, ponendo le basi dei contenitori per la conservazione degli alimenti più utilizzati e di un'azienda come la Tetra Pack. Sesamo nel suo piccolo è frutto di un'intuizione altrettanto geniale: osservando le cassette del wc incassate, allo studio Arkimera si è pensato di incassare e rendere invisibili gli accessori, antoniolupi ci ha creduto et voilà è nato Sesamo.

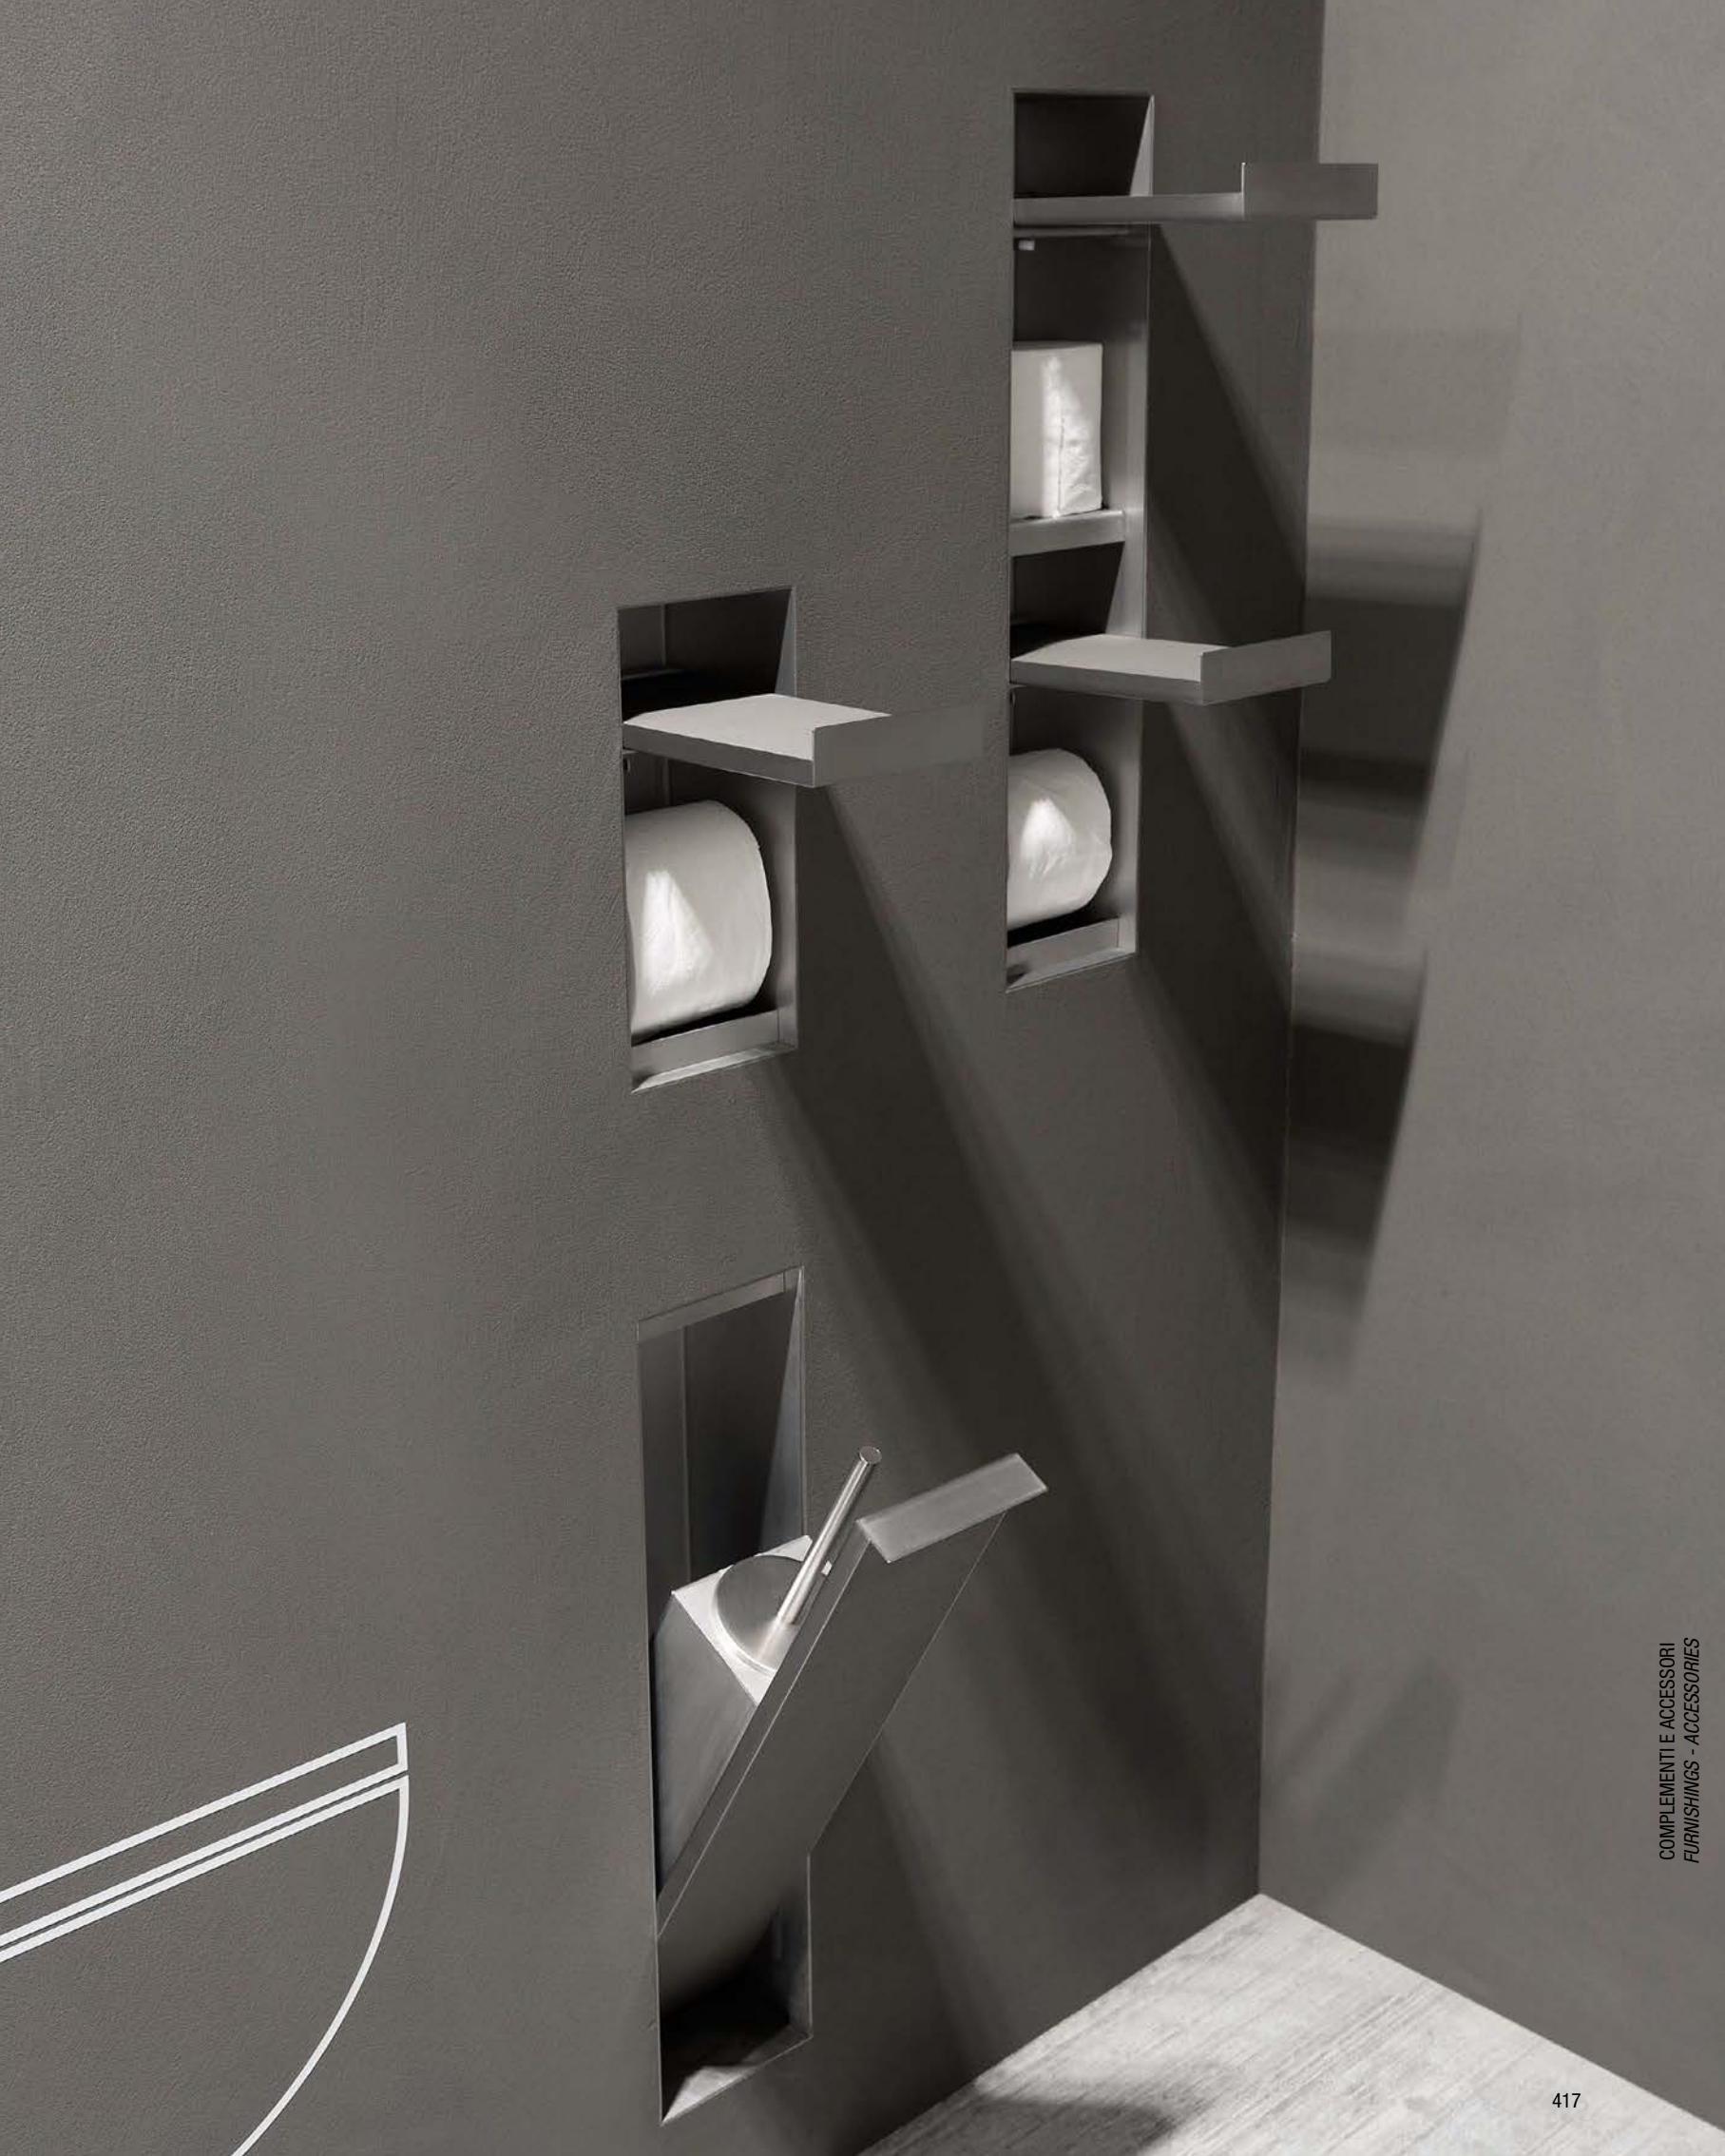

Often innovation and cleverness lie behind simple things: Georges de Mestral invented Velcro in 1941 while observing, upon his return from a trip to the countryside, the seeds of the burdock plant that had attached themselves to his clothes, Ruben Rausing using a type of plastic coated paper was able to make it absolutely impenetrable to air, laying the foundations of containers for food storage of a company like Tetra Pack. Sesamo is the result of an equally brilliant intuition: observing the encased toilet cisterns, the Arkimera studio decided to encase and hide accessories of which antoniolupi supported the idea and voilà, Sesamo was born.

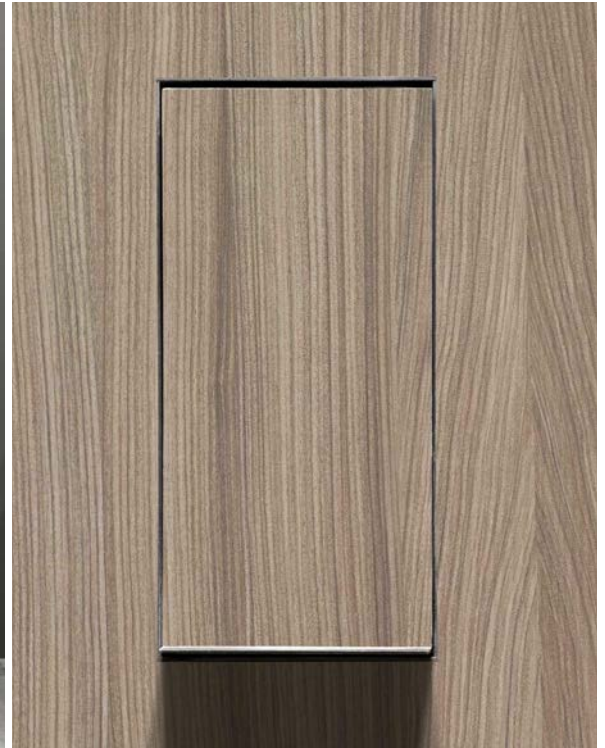

- 1 SESAM05 Porta carta igienica con scorta / Toilet paper holder with spare
- 2 SESAM04 Porta carta igienica / Toilet paper holder - P 10,4 cm
- SESAM041 Porta carta igienica / Toilet paper holder - P 15 cm
