STORY

According to an old Legend, each leaf of a clover had a meaning: Hope, Faith and Love. It was believed that whoever found a 4 leaf clover would have the Luck represented by the fourth leaf with the gift to absorb the magical powers of the forest and the Luck of the gods. The number of leaves represent a complete cycle, as well as the 4 seasons, the four phases of the moon and the 4 elements of nature: water, air, earth and fire.

*Being rare of finding, the meaning of this 4 leaf clover became a symbol of prosperity and the mystique of this Lucky charm continues until today ... Do you believe in **Four... For Luck?***

PRODUCT DETAILS

MATERIALS

Top: structure finished in rosewood veneer. Plate recessed into the wood in polished brass.

Base: handcrafted feet in polished brass.

"On a cold afternoon I found myself thinking about where to place a cup of tea and a small plate of cookies. The table at the center of the room was too far away from the sofa and the image of a clover appeared by surprise."

Four ... for Luck is a special clover with a creative process based on the interpretation of the Legend of the 4 leaf clover, in which each petal represents a meaning. The concept of total independence was explored so that the four constituent parts of the whole - Hope, Faith, Love and Luck - can play a free specific role whenever necessary.

Slender and projected in the air, each petal finished in listed rosewood veneer is like a real leaf in which the organic thin stem rises dividing it into two parts. This separation detail that creates the continuity between petal and stem is emphasized in polished brass. The excellence of materials and finishes combined with the accuracy of the small details makes this center table a true refinement and elegance furniture piece.

A Legend gains strength through belief and each legend is contested by disbelief. Winston Churchill said *"I don't believe in luck, I believe in attention to detail."* Stories, legends and memories gain shape over time. We don't know the true power of this legend but just in case Joana Santos Barbosa created **Four... for Luck**, through the attention to detail.

The design and product engineering of all the pieces used in **Four... for Luck** are responsibility of INSIDHERLAND and its implementation is made by Portuguese craftsmen and companies.
