

The image features a minimalist, line-art style illustration on a black background. On the right side, a mirror is depicted with a circular base and a vertical stem that branches into two curved lines forming a shallow, bowl-like shape above. On the left side, a large, pointed, leaf-like shape is outlined with a double-line border. The text 'Aglaia Mirror' is centered in the middle of the composition, overlapping the space between the two shapes.

Aglaia Mirror

2020

Aglaia is designed with the simple intention of bringing the beauty of nature into the house. The reverse of the mirror can be upholstered in any fabric, veneer or wallcovering, with a seam in the middle, allowing the pattern to be mirrored across the middle in the same way a leaf grows simultaneously in two directions. The mirror is framed in brass or any other metal finish and the whole piece is made stable by a solid marble base.

Solid marble base with built-in rotating mechanism, mdf backed glass mirror with book-matching veneer back. Steel frame and support.
