

Care of Sunbrella® Fabrics

We manufacture our cushions and parasols from Sunbrella® fabric and Sunbrella-Rain® fabric both of which are made from a durable, 100% solution dyed acrylic fibre, which is colour fast in sunlight.

Sunbrella® fabric has a water repellent finish applied but is not waterproof and should not be left out in heavy rain.

Sunbrella-Rain® fabric has an additional barrier finish that is waterproof.

The best way to remove various stains is explained and illustrated on the Sunbrella® website, which can be accessed using the link below.
