

Hood Modular System 2518 001

Hoods

Code: 2518 001

Code: 2518 001 Control Code: 2519 001 Subordinate

DETAILS

White
Stainless steel
Satin Finish - glass
D
min 220 mm / max 310 mm
Modular - modular ceiling suction system
1 grease filtre
Suction hood (filtering modality not available)

Cut out	340x340 mm
Air exhaust hole	ø 120 mm
Lighting	Low consuption LED lighting
Notes:	Fume exhaust ducts must have an internal diameter not lower than 120 mm
Notes:	The height of the hood from the hob suggests the use of at least two suction modules, for adequate suction.
Air flow rate	400mc/h
Motor power	140W
Hood type	Ceiling suction hood
Type of commands	Remote control
Suction speed	4 operating speeds
FEATURES	
Auto delayed shutdown	All the models with electronic interface can be programmed to turn off the suction at a postponed moment, so as to prolong the aeration of the room even after the cooking has been completed.
Led lighting	Particular attention to energy saving with LED lighting systems. They assure a 10 times lower consumption and a 10 times longer duration. Our LED lights are designed to create an adequate comfort and safety in the cooking area.

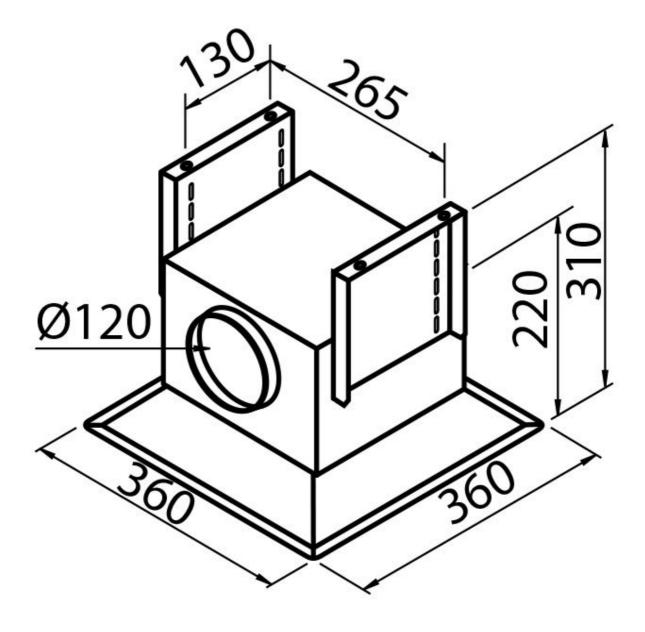

Perimetric aspiration

The perimeter suction is a feature common to many Foster hoods. The filters are hidden by steel- or crystal plates and the suction occurs along their perimeter. This has aesthetic advantages but also functional ones: the cleaning is easier, the suction power and noise-level are improved. The depression which occurs in the perimeter area facilitates in fact the suction of the particles composing the fumes.

Remote control

The ceiling suction systems and the Maya hoods are equipped with a remote control to easily activate all their functions from any position.
