

TRIO™ TABLE ENSEMBLE

PRODUCT DATA

TRIO™ TABLE ENSEMBLE

PRODUCT DATA

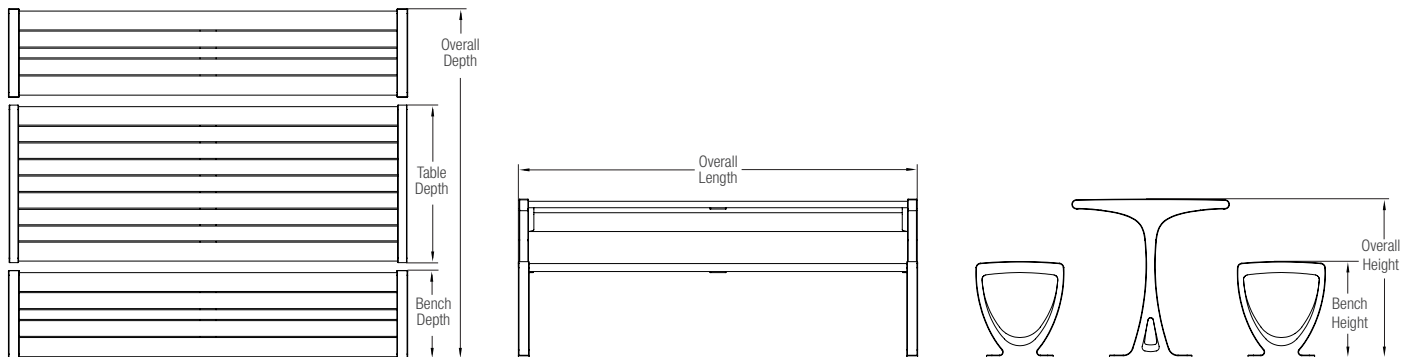

The **Trio Table Ensemble** brings a social element to the Trio family of products. Both the table and benches stay true to the aesthetic of the Trio line, and together form a unified design element. Corrosion-resistant cast aluminum frames pair up with a choice of FSC® 100% Ipé hardwood or powder-coated aluminum slats. Variations that comply with ADA standards and/or incorporate our Soleris Sunshade increase the options.

MATERIAL & CONSTRUCTION DETAILS

INSTALLATION & MAINTENANCE

FRAME	SLATS	ADA OPTION	INSTALLATION	MAINTENANCE
<ul style="list-style-type: none"> Frame is made of corrosion-resistant solid cast aluminum with powdercoat finish; underside end-to-end support slat is extruded aluminum powdercoated to match. See the Forms+Surfaces Powdercoat Chart for details. Custom RAL colors are available for an upcharge. Due to the inherent nature of metal castings, gloss powdercoats are not offered for cast components. The TrioTable Ensemble can be used with our Soleris Sunshade. 	<ul style="list-style-type: none"> Ipé hardwood slats offer superior resistance to moisture, insects, fire, vandalism and decay. All Trio wood is FSC® 100% and has a natural oiled finish that enhances the wood's rich color. (FSC License Code: FSC-C004453) Extruded aluminum slats feature a lightly grooved surface for enhanced appearance and non-slip feel. Standard finishes are Clear Anodized and powdercoat. See the Forms+Surfaces Powdercoat Chart for details. Custom RAL colors are available for an upcharge. 	<ul style="list-style-type: none"> The ADA option includes one side with a shorter, 36" bench, permitting unhindered wheelchair access to the table. When the ADA option is used, the Trio Table Ensemble can be installed to comply with the applicable ADA Standards: 226 for Dining and Work Surfaces, 305 for Clear Floor or Ground Space, 306 for Knee and Toe Clearance, and 902 for Dining Surfaces and Work Surfaces. 	<ul style="list-style-type: none"> Trio Table Ensembles must be surface mounted. Anchors and stainless steel mounting screws are included. 	<ul style="list-style-type: none"> Metal surfaces can be cleaned as needed using a soft cloth or brush with warm water and a mild detergent. Avoid abrasive cleaners. Ipé hardwood slats can be maintained by re-oiling as needed with Penofin® hardwood finish or similar products.
