

TONYO™ LITTER & RECYCLING RECEPTACLE

PRODUCT DATA

TONYO™ LITTER & RECYCLING RECEPTACLE

PRODUCT DATA

Tonyo Litter & Recycling Receptacles offer a beautifully modern solution for a wide range of settings and waste collection needs. Defined by streamlined aesthetics and robust, low-maintenance materials, Tonyo's highly adaptable framework acts as a canvas for endless customization. Receptacles are available in 30-, 36- and 60-gallon capacities, each with configurable options that include single- and split-stream variations, bodies and doors in powdercoated stainless steel or FSC® 100% Cumaru hardwood slats, rain hats, and instructional waste stream graphics. Opportunities for color-blocking and incorporating custom branding and graphics expand the line's visual and messaging potential and contribute to its far-reaching, design-forward appeal.

MATERIAL & CONSTRUCTION DETAILS

INSTALLATION & MAINTENANCE

CONFIGURATION OPTIONS & LINERS	BODY & DOOR MATERIAL OPTIONS	INSTALLATION
<ul style="list-style-type: none"> Tonyo Receptacles are available in 30-, 36-, and 60-gallon capacities. 30- and 36-gallon models are available in single- or split-stream configurations; 60-gallon models are available as split-stream only. Single-stream receptacles use a single 30- or 36-gallon liner. Split-stream receptacles use two 15-, 18-, or 30-gallon liners. Liners are black polyethylene with integral bag straps and hand holes. 	<ul style="list-style-type: none"> Receptacle lid, sidebars, and base are corrosion-resistant cast and extruded aluminum with a powdercoat finish. Internal frame is stainless steel. Body and doors are available in either powdercoated stainless steel or FSC® 100% Cumaru hardwood slats with corrosion-resistant cast aluminum supports. (FSC License Code: FSC-C004453) Stainless steel body and doors can be specified in a powdercoat color that matches or contrasts with the rainhat, sidebars, base, and/or lid. Powdercoat options vary per receptacle configuration; refer to page 6 for more information. See the Forms+Surfaces Powdercoat Chart for details. Custom RAL colors are available for an upcharge. 	<ul style="list-style-type: none"> 30-gallon Tonyo Receptacles are mounted on a pole and can either be cast-in-place or surface-mounted. 36- and 60-gallon Tonyo Receptacles are available as freestanding with levelers or surface-mounted with levelers. Anchors and stainless steel mounting screws are provided when surface mounting is specified; levelers are supplied for freestanding and surface-mount receptacles.
<p>SIDE ACCESS DOOR AND LATCH</p> <ul style="list-style-type: none"> Hinged side-access doors open in a clamshell fashion. 30- and 36-gallon models have a single door on the left side; 60-gallon models have a door on either side of the receptacle. Latches and hinges are stainless steel. Standard latch option is a lift latch; a limited-access latch operated with a flathead screwdriver is also available. 		
<p>RAIN HATS</p> <ul style="list-style-type: none"> 30-gallon receptacles are standard with rain hats. 36- and 60-gallon are available with or without rain hats. Rain hats are corrosion-resistant cast aluminum with a powdercoat finish. See the Forms+Surfaces Powdercoat Chart for details. Custom RAL colors are available for an upcharge. 	<p>GRAPHICS</p> <ul style="list-style-type: none"> Instructional graphics are optional and are available with a variety of standard messages that clearly indicate the use for each opening. Graphics have white letters and symbols with black, blue, or green backgrounds. Graphics are printed on the back of clear, lightly textured polycarbonate, protecting them from wear over time. Reference pages 7-9 for graphic options and placement. 	<p>MAINTENANCE</p> <ul style="list-style-type: none"> Polyethylene and metal surfaces can be cleaned as needed using a softcloth or brush with warm water and a mild detergent. Avoid abrasive cleaners. Cumaru hardwood can be maintained by re-oiling as needed with Penofin® hardwood finish or similar products.

CREATIVE CANVAS

Tonyo's impressive customization potential is the result of multiple configurable elements that make up each finished design, as described above. As outlined on the following pages, specifics vary per receptacle size and configuration and generally encompass several key arenas:

Materials & Colors: Receptacle bodies and doors can be specified in powdercoated stainless steel or with slats of FSC 100% Cumaru hardwood. Receptacle lids, sidebars, bases, and rain hats are available in the same palette of powdercoat colors and can be specified to match or contrast with receptacle body and door materials to create a monochromatic look or achieve unique color-blocking effects.

Waste Stream Graphics: Designed to be both elegant and informational, optional waste stream graphics accommodate multiple waste streams. Keeping with Tonyo's clean aesthetics, placement is optimized per receptacle size, material combination, and configuration.

Custom Graphics: Powdercoated stainless steel bodies and doors can be customized with branding and graphics—an especially fitting choice for municipalities, universities, and other sites seeking property-aligned personalization. Options include laser-cut designs with stainless steel backers, and/or vinyl graphics.

POWDERCOAT & COLOR-BLOCKING OPTIONS

Powdercoat options vary per configuration. Metal components on receptacles with FSC 100% Cumaru slats are standard as one color. Receptacles with stainless steel body and doors provide the option to choose one single color, or two contrasting colors for a color-blocking effect. See below for visual representation, as shown using the 36-gallon configurations.

**TONYO RECEPTACLE, 36-GALLON,
FSC 100% CUMARU HARDWOOD BODY/DOOR, WITH RAIN HAT**

**TONYO RECEPTACLE, 36-GALLON,
STAINLESS STEEL BODY/DOOR, WITH RAIN HAT**

**TONYO RECEPTACLE, 36-GALLON,
FSC 100% CUMARU HARDWOOD BODY/DOOR, WITHOUT RAIN HAT**

**TONYO RECEPTACLE, 36-GALLON,
STAINLESS STEEL BODY/DOOR, WITHOUT RAIN HAT**

PRODUCT DATA

STANDARD GRAPHICS

Tonyo Receptacles can be specified with or without instructional graphics. Options vary per receptacle configuration and generally consist of multiple graphic elements that incorporate color, waste stream symbols and/or text that indicate the use for each opening. Standard background color options are Green, Blue and Black. All lettering and symbols are White.

GRAPHIC SYMBOL/MESSAGE OPTIONS

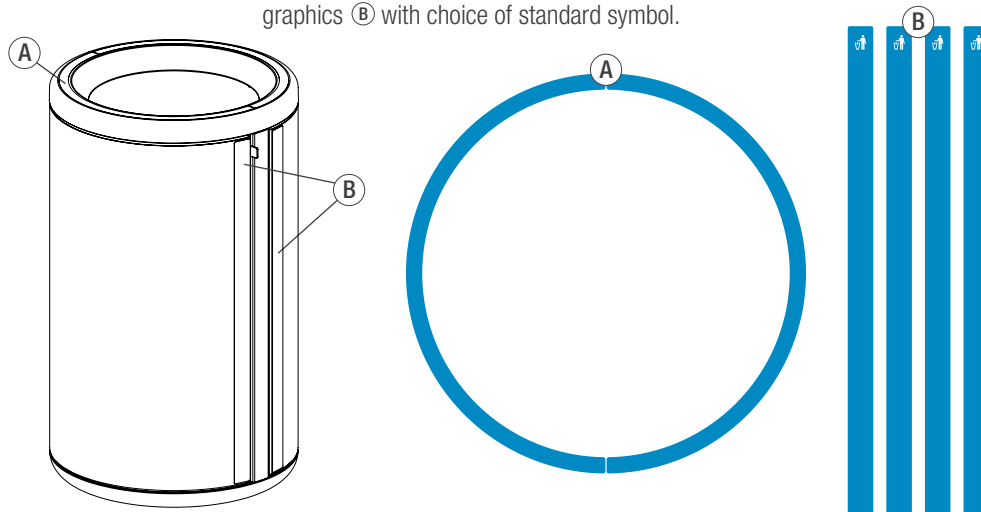

30- & 36-GALLON SINGLE-STREAM RECEPTACLE GRAPHICS (shown on 36-gallon receptacles)

Single-stream FSC 100% Cumaru configurations include a solid-colored top-of-lid graphic (A) and four horizontal door/body graphics (B) with choice of standard symbol.

Single-stream stainless steel body/door configurations include a solid-colored top-of-lid graphic (A) and four vertical door/body graphics (B) with choice of standard symbol.

LEAD TIME: 6 to 8 weeks. Shorter lead times may be available upon request. Please contact us to discuss your specific timing requirements.

PRICING: Please contact us at **800.451.0410** or **sales@forms-surfaces.com**. At Forms+Surfaces, we design, manufacture and sell our products directly to you. Our sales team is available to assist you with questions about our products, requests for quotes, and orders. Territory Managers are located worldwide to assist with the front-end specification and quoting process, and our in-house Project Sales Coordinators follow your project through from the time you place an order to shipment.

TO ORDER SPECIFY: Quantity, model, body/door material and finish, latch, and mounting options. Quote/Order Forms are available on our website to lead you through the specification process in a simple checkbox format.

NOTE: Because different computers will render colors and textures differently, actual colors and finishes may vary slightly from those shown here.
