# **INSTALLATION & MAINTENANCE**

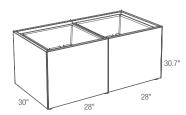

BODY	LINER	INSTALLATION
Planter body is made of TENSL UHPC with an intrinsic UHPC finish in Natural color.	Miter Planters use independent, replaceable internal liners.	Miter Planters are freestanding; stainless steel levelers with nylon glides are included.
TENSL surfaces are protected by an invisible hydrophobic treatment.	Liners are molded from durable black polyethylene with a UL94HB fire rating.	
Slight variations in color and surface texture can occur due to the nature of the TENSL manufacturing process.	Liners can be specified with drain holes.	
The UHPC bottom of each planter has three holes for irrigation or drainage.		
CORNER PLATES	OPTIONAL INTERNAL SHELF	MAINTENANCE
Decorative corner plates are made of 4 mm laser-cut stainless steel with polished finish.	Optional internal shelves made of TENSL UHPC are available for an upcharge.	TENSL surfaces can be cleaned as needed using a soft cloth or brush with water and a mild detergent. Surfaces
	<ul> <li>Shelves fit into gussets in the liners, providing a shallower planting depth option.</li> </ul>	should be thoroughly rinsed and allowed to dry.  • Avoid abrasive cleaners.
	Shahower planting depth option.	AVUIU ADI ASIVE CIEATIETS.
