

## Oven KE 7146 022

Ovens and Coordinated Products

Code: 7146 022

### COOKING PROGRAMS

- |                                |                                                                                                                                                             |
|--------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Microwave cooking              | Ideal for cooking or rapidly heating vegetables, rice, fish, meat and liquids. different power levels are available.                                        |
| Ventilated cooking             | The combination of ventilation and circular heating elements allows for cooking different types of foodstuffs together, without mixing aromas and flavours. |
| Ventilated grill               | The combined action of the fan and grill produces rapid and thorough cooking of thick foodstuffs.                                                           |
| Grill                          | To quickly gratin the surface of the food.                                                                                                                  |
| Bottom Cooking + Fan           | Programme that ensures limited energy consumption, ideal for heating foodstuffs or for foodstuffs that require delicate, gradual cooking.                   |
| Ventilated cooking + microwave | The movement of air generated by the fan ensures better homogeneity of micro cooking.                                                                       |
| Microwave + Ventilated grill   |                                                                                                                                                             |
| Microwave + grill              | A combined cooking method that is ideal for lasagne, potatoes, roasts and pies.                                                                             |

Bottom ventilated cooking +  
Microwave

---

Thawing It allows you to defrost foods in a third of the time through the uniform distribution of air at room temperature.

---

## DETAILS

Material Stainless steel + glass

---

Texture Satin Finish ANTI-TOUCH

---

Supply 230V - 50Hz

---

Dimensions 60x46 cm

---

Standard fittings 2 stainless steel grills (high and low grill) · 1 round enamelled pan

---

Number of door glasses 3 glasses

---

Power absorbed by the microwave 900 W + Grill 1750 W

---

Programming End of cooking timer

---

Type of cooling Tangential ventilation

---

Safety Door Lock

---

Max temperature 230° C

---

Oven type Combi-microwave oven

---

Type of commands Touch Control + Knobs

---

Volume 34Lt

---

## FEATURES

**Self cooking** An intuitive and advanced programming system that allows to recall a wide set of preset recipes and to memorize exclusive ones.

---

**Full glass door** The inside of the oven door constitutes a single smooth glass surface making it practical for cleaning purposes.

---

**Automatic thawing** It is possible to defrost not only setting the time but also alternatively the type and weight of the food.

---

**Triple glass** The door is equipped with a multiple glass door. This device ensures low temperatures of external surfaces and lower heat loss.

---

**Tangential fan** A special ventilation creates a flow of air between the cooking chamber and framework, thereby reducing the temperature of the external surfaces. As consequence, the oven does not expose furniture to temperature shock.

---

**Anti-touch finish** The steel parts of the door, thanks to the special protection, are perfectly smooth and protected from fingerprints, while maintaining the elegance of the satin finish.

---
