

# RECYCLING BINS: PEBBLES

| Categories: [ECO DESIGN](#), [LITTER BINS](#), [RECYCLING BINS](#)

## PRODUCT DESCRIPTION

Elegant two-section bin for waste recycling. Already sold abroad in several shopping malls, PEBBLES is the ideal container also for shops and airports which look for something attracting, which catches the attention of passers-by, and encourages recycling. The plaques identifying the waste to be thrown in the bin are customisable in writing and colours. PEBBLES is available in the MINI and MAXI size.

For the realization of this product made in Italy, Steel EN10111DD11 is used and later treated with a cycle of sandblasting, cataphoresis and powder coating. Such cycle is meant to guarantee the protection of the painted products, in an environment of C4 corrosion class, as requested by the UNI regulations EN ISO 12944-2. The products are eventually polyester-powder coated with RAL colours at choice.

### Size:

#### **PEBBLES MAXI:**

Height: **90 cm**
