TECHNICAL DATA

IT

La corretta installazione prevede un letto di drenaggio in ghiaia di 30 cm alla base della controcassa. Per il fissaggio della controcassa al terreno, non utilizzare prodotti che ostacolano la dispersione del calore, tipo resine o espansi.

EN

The correct installation foresees a gravel drainage bed of 30 cm at the base of the counter-case. To fix the counter-case to the ground, do not use products that block the dispersion of heat, such as resins or foams.

DE

Für den korrekten Einbau ist zur Drainage am Fuß des Einbaugehäuses ein 30 cm tiefes Kiesbett vorzusehen. Keine wärmeisolierenden Baustoffe (wie z.B. Harz oder Schaumstoff) für die Befestigung des Einbaugehäuses im Boden benutzen.

FR

Pour une installation correcte, prévoir un lit de drainage en gravier de 30 cm à la base du pot d'encastrement. Pour la fixation du pot d'encastrement au terrain, ne pas utiliser de produit susceptible d'entraver la dispersion de la chaleur tels les résines ou les produits mousse.

ES

Para una instalación correcta, disponer un lecho de drenaje de grava de 30 cm a la base de la hornacina. Para fijar la hornacina al terreno, no utilizar productos que obstaculicen la dispersión del calor como las resinas o los productos en espuma.
