urban

Edeestudio

Sofá modular de estética sencilla que puede crecer de manera casi infinita y adaptar su tamaño al espacio disponible.

Tiene un aspecto cómodo y acogedor, que se puede variar ligeramente montando uno de los tres tipos de patas (de madera, haya o roble y metálicas) que se muestran como opción.

A modular sofa of pure aesthetics which can grow almost infinitely and which size can be adapted to the available space.

It has a comfortable and welcoming feel, which can be slightly altered by using one of three different legs (wood, beech or oak and metal) which are shown as options.

edeestudio

Esther Albert (Diseñadora de Interiores, Albaida 1972) y Eduardo Alcón (Diseñador Industrial, Valencia 1978) crean edeestudio en Valencia a finales del año 2008, después de haber trabajado en diversos estudios de diseño y empresas del sector. Con formación multidisciplinar, trabajan juntos en el campo de diseño industrial, grafico, multimedia, dirección de arte e interiorismo.

Edeestudio nace de la inquietud conjunta por el diseño y por la motivación creativa que conlleva. Su objetivo principal es transmitir al cliente una idea innovadora y original acorde con las necesidades del mercado, sin olvidar su carácter funcional y estético, implicándose en todos los procesos del proyecto, desde su concepto inicial hasta su desarrollo.

After training in Industrial and Interior Design in Valencia, working in various design studios and factories, Eduardo Alcón (1978, Valencia) and Esther Albert (1972, Albaida) decided to get together. Today, edeestudio are based in Valencia and work in industrial, graphic, interior and web design.

They develop works in which there is transmitted to the client an innovative and original identical idea to the needs of the market, without forgetting his functional and aesthetic character being involved in all the processes of the project, from the initial concept up to the development.
