

# Reliable outdoor lighting

ARGUS twilight switch

ARGUS light-sensitive  
switches ensure reliable  
outdoor lighting and  
reduce costs

# ARGUS twilight switch

The ARGUS light-sensitive time switch allows you to be particularly energyefficient, wherever you need light to be maintained for a certain period of time. For example: on company premises, in car parks and petrol stations, in front of galleries and shop windows or for path lighting.

ARGUS light-sensitive switch AC 230 V, original product size

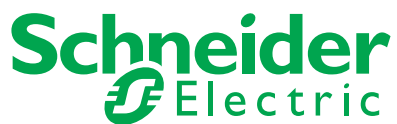

high sensitivity to light

waterproof to IP54 standard

ARGUS twilight switch	
<b>Areas of use</b>	Lighting of private or industrial premises, Lighting of illuminated signs and shop windows, Lighting of car parks
<b>Type of installation</b>	Surface mounted
<b>Connected load</b>	up to 2300 VA
<b>Max. switching current</b>	AC 230 V, 10 A, $\cos \varphi = 0.6$
<b>Halogen lamps</b>	AC 230 V, up to 2000 W
<b>Incandescent lamps</b>	AC 230 V, up to 2300 W
<b>Capacitive load</b>	max. 140 $\mu$ F
<b>Connecting terminals</b>	for 2.5 mm <sup>2</sup> rigid conductors
<b>Adjustment range/switch threshold</b>	3 to 2000 lux, adjustable
<b>Switching delay</b>	when switching on: approx. 40 s, when switching off: approx. 100 s
<b>Dimensions</b>	approx. 97 x 80 x 47 mm
<b>Article number/Colour</b>	with switching delay, polar white <b>MTN544819</b> without switching delay, light grey <b>MTN544829</b> with switching delay, light grey <b>MTN544894</b>

Make the most of your energy
