PRODUCT INFORMATION

**USE**

Multipurpose collection for collective areas, offices and hospitality.

**METAL STRUCTURE**

Manufactured with 25 mm round steel tubing. Finished in white, black, grey (RAL 9006) or chrome.

**BACKREST AND SEAT**

Anatomically design seat and backrest made of recyclable polypropylene. The polypropylene can be manufactured in several colours: black, white, grey, maroon and mocha. For orders of over 300 units, other colours can be injected (consult for prices and delivery times). The seat has a protective outer casing of polypropylene. The interior polypropylene seating can be covered with high density and high resilience polypropylene foam and upholstered with any of the fabrics from our samples catalogues or with the fabric supplied by the customer.

**ARMS**

The arms of the chairs are made of polyamide in the same color as the seat and backrest.

**BENCHES**

The benches can have from 2 to 5 seats. Base with arch shape, manufactured with 40 mm round steel tubing. Finished in aluminium and optionally in black or chrome. 80x40 mm steel tube crossbar with 6 mm steel plate anchor for the frame. Wooden side table made of black lacquered MDF.

**OBSERVATIONS**

The chairs and armchairs are stackable. There is a trolley to transport the stackable chairs. It offers a folding chromed rod system which connects the chairs together in rows.

**QUALITY STANDARDS**

AIDIMA quality seal. European standards UNE EN 13761.
