New lamps by
Jaime Hayón
Josephine mini

Designer
Jaime Hayón

Producer
Metalarte

Description

Josephine mini is a compact version of the already known Josephine. The lamp is available in table and wall bracket. Both pieces are made in porcelain as their predecessors. With this release we complete Josephine's family.

Technical Details

Both new models are formed by a porcelain structure in white, black, gold or platinum. The shade is available in the same colours.

Light source

E-27 Max.60 W

Designer

Jaime Hayón was born in Madrid in 1974. His career has taken him all round the world, to cities such as Los Angeles, Paris and Hong Kong, and Treviso (Italy), among others.

Jaime Hayón's work has transcended the barriers between two worlds that have always been apart: art and design. Thus he has created a style of his own. Multitalented creator as he is, Jaime Hayón has worked in a variety of areas, including restoration, fine arts and design.

Americas, Bastone, Josephine mini and Las Santas are fruit of the agreement on exclusivity (regarding to the lamp design) between Jaime Hayón and Metalarte. Jaime Hayón new collections will come over the following months.
