## - Collection.

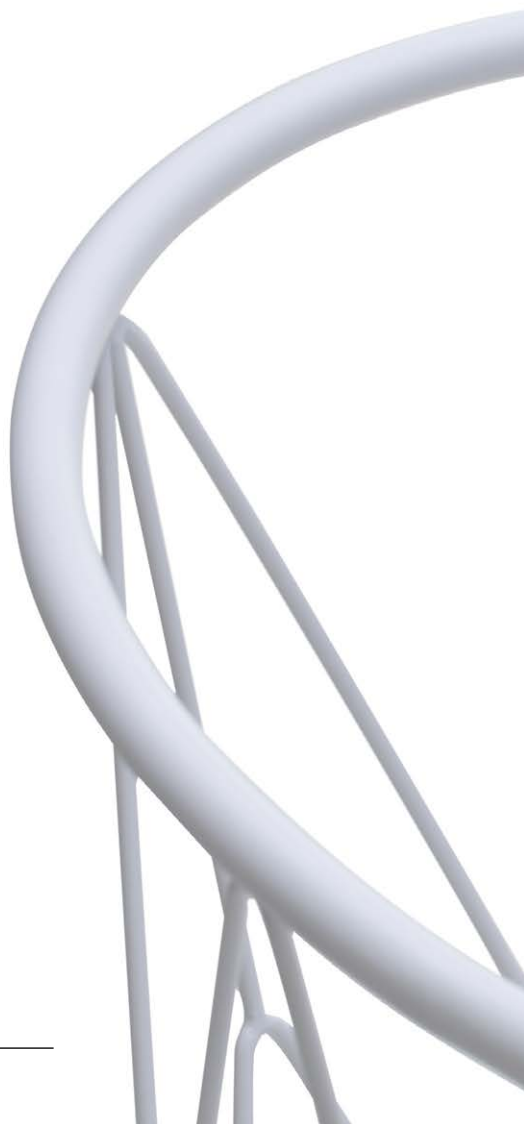

Kao vodeća linija Garda outdoor nameštaja, Ataman kolekcija se perfektno odnosi na čuvenu izjavu Mis Van Der Roea "Manje je više". Kolekcija se sastoji od više različitih stolica, fotelja, klupe, sofe, ležaljke, velikog šestougaonog i manjeg okruglog stola za ručavanje i klub stolova.

Glavna odlika je u raznovrsnosti i upotrebi različitih oblika i tipova materijala, kao i u završnom načinu obrade produkta.

---

As the flagship line of Garda's outdoor furniture, Ataman collection perfectly refers to the famous quote of Mies Van Der Rohe "Less is more". Collection is composed of few different chairs, armchairs, bench, sofa, chaise longue, big hexagonal and smaller round dining table and coffee tables.

Main feature is in diversity and use of different shapes and type of materials, so as in final product finish.

## -Minimalist Chair.

Ključna uloga u dizajnu leži u samoj strukturi koja je sastavljena iz tri elementa, dve noge i rama naslona postavljenih u takvom harmoničnom odnosu da daju jedan lagan i jedinstven izgled.

Jaka u karakteru, stolica ima nekoliko varijacija koje podrazumevaju promenu ili upotrebu različitih sedišta i naslona.

Key role of its design lies in its structure that is made out of three elements, two legs and the backrest frame, placed in such harmonious order that gives one light and unique look.

Strong in a character, chair has several variations considering change and use of different kind of seats and backrests..

# TOTEM

## -Collection.

---

Inspirisan kultom i zajednicom, Totem se na jedan simboličan način ističe u svom dizajnu i samoj izradi. Kolekcija se sastoji iz stolice, klupe i dve verzije stola, standardnog i dugačkog formata.

Kao protagonista kolekcije, Totem stolica nosi titulu po svom najkarakterističnijem elementu – naslonu. Sa ciljem valorizacije ovog dela, postoje dva tipa naslona, sa i bez perforirane metalne ploče koja u dodatku tapaciranog jastuka čini stolicu još udobnijom.

Inspired with a cult and community, Totem, in one symbolic manner, is distinguished both by its design and craft. Collection consists of the chair, bench and two versions of the table, standard and the long one.

As a protagonist of the collection, Totem chair wears the title by its most characteristic element - backrest. In order to valorize this part, there are two types of the backrest, with or without a perforated back plate that in addition of an upholstered cushion support makes the chair even more comfortable.

# TOTEM -Chair.

Uklapajuća mogućnost dozvoljava ubacivanje većeg broja stolica jedne u drugu i samim tim je čini fleksibilnijom za transport ili stavljanje na stranu u zavisnosti od upotrebe.

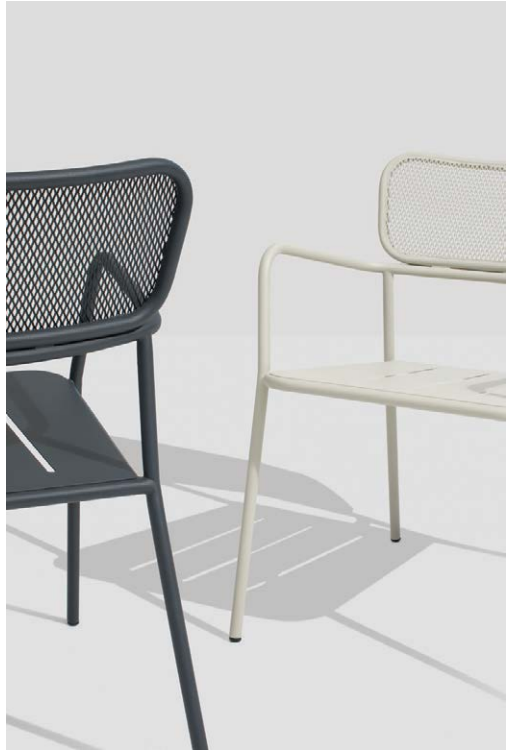

Stacking ability gives the opportunity to put a large amount of chairs one into another that makes it more flexible both for transport or putting it on a side depending of use.

## -Bench.

Kao produžena varijanta stolice, Totem klupa može da se koristi u sastavu seta stola i stolica ili zasebno, uz mogućnost ubacivanja jastuka radi dobijanja dodatne udobnosti.

As the extension of the chair, Totem bench can be used in composition with the table and chairs or separately, with a possibility of adding the extra cushions for a more comfortable seating.

## -Dining Table.

Kako bi se zadržao identitet kolekcije, kod stola je primenjeno udvajanje cevi slično detalju kod naslona stolice, a što je karakteristično za Totem familiju proizvoda. U zavisnosti od potrebe postoje dve verzije stola: standardna i produžena, koje u kombinaciji sa stolicama mogu biti korišćene u raznim prilikama kako u eksterijeru tako i u enterijeru.

In order to maintain the same identity of the collection, on the table is applied doubling of pipes similar to detail of the chair's backrest, which is characteristic of the Totem family of products. Depending of the need, there are two versions of the table, standard and long, that in combination with chars can be used in various occasions both exterior and interior.

### Metal

Metalni elementi su izrađeni od čeličnih cevi zaštićenih dodatnim procesom cinkovanja, uz moguću varijantu korišćenja nerđajućih čeličnih cevi (inox), dok se u završnoj obradi primenjuje tehnika plastifikacije jednom od ponuđenih pigmentnih outdoor boja u prahu. Kao rezultat se dobija gotov proizvod koji ispunjava sve kriterijume korišćenja u spoljnim uslovima.

Metal elements are made of steel pipes additionally protected during a process of zinc plating, with a possibility of using a stainless steel pipes instead (inox), while in the final processing, technique of powder coating is being applied in specific color. As the result, the final product is being made that meets all the requirements for using in outdoor conditions.

### Kanap/Rope

Kanapi korišćeni kod Garda proizvoda su napravljeni od posebnog sintetičkog materijala za spoljnu upotrebu koji je izrazito otporan na UV zračenje, abraziju i atmosferske uticaje. Različiti u preseku (pljosnati ili okrugli), kanapi se koriste za stvaranje izuzetno praktičnih i udobnih tkanih stolica i naslona.

The ropes used in the GARDA collections are made specially for outdoor use and made in synthetic material that is highly resistant to UV rays, abrasion and atmospheric events. They are different in their cross-section (flat and round) and are used to create extremely practical and comfortable woven chairs and chair-backs

## Štof/Fabric

Odabir štofova je podeljen u dve sekcije: Water repellent i Waterproof. Oba tipa visoko kvalitetnog štofa poseduju adekvatne zaštite na atmosferske uticaje i isključivo su predviđeni za korišćenje u spoljnim uslovima. Water repellent podrazumeva tkanje koje nije 100% nepromočivo, već u kombinaciji sa outdoor sunderom čini da se voda ne zadržava prilikom prodiranja u sam štof, dok Waterproof materijal u svom sastavu ima vodo-nepropusnu membranu koja u potpunosti zaustavlja tečnost na površini i ne dozvoljava da prođe u štof.

Fabric selection is divided in two groups: Water repellent and Waterproof. Both types of high quality fabric have an adequate protection against atmospheric events and are exclusively predicted for outdoor use. Water repellent considers a fabric that is not 100% waterproof but in combination with the outdoor sponge makes that penetrated water doesn't hold back, while Waterproof material in its composition has the specific membrane that completely holds the liquid at the surface and doesn't let the penetration into fabric.

## HPL

Jos jedan materijal u paleti je HPL (High Pressure Laminates), od kog su izrađene ploče stolova, a koji je na više načina impresivan, kako strukturno tako i vizuelno. Proizveden sofisticiranim tehnološkim procesom, idealan je spoj estetike i izdržljivosti na spoljne uslove, a između ostalog na abrazije, udare, ogrebotine i ekstremne varijacije temperature.

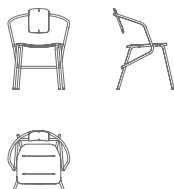

Another material in the palette is HPL (High Pressure Laminates), that was used for table tops and which is in many ways impressive, both structurally and visually. Produced by a sophisticated technological process, it's an ideal combination of aesthetics and durability to outdoor conditions, in particularly abrasion, bumps and extreme temperature variations.
