Substructure

for upholstered bed

The upholstered bed augments modern sleeping-culture by a perfekt storage technology. Thanks to the use of high-quality gas pressure springs, the aired bed frame's operability is enhanced. With a volume of about 260 l (at 180 x 200 cm) the bed frame leaves space for a bedspread, pillows and more. Spring wood frames of four variations allow first-class comfort - tailored to specific requirements.

Quality is never an accident

For more than 200 years now, the company femira stands for for the crafting of high quality upholstery.

The focus on the field of bed-systems has established a great level of competence within the market today. With a healthy mix of manual labour and automated handling, femira set a goal at a lot-size 1 production in the 4.0 industry. A goal which ensures a steady expansion of the manufacturing site. Due to highest standards of quality and specially trained employees, their products are coming into being within the shortest amount of time, made in Germany.

The stylistically confident collection of fabrics appeals mostly thanks to the sophisticated quality of the JAB Anstoetz - one of the world's largest textile houses.
