HISTORY

— THE MEANING OF ROOTS, THE OPENING
UP TO THE WORLD

Il senso delle radici, l'apertura al mondo. Nella dimensione globale dei mercati e delle idee, le radici sono un bene prezioso. Il fil rouge di una storia che inizia negli anni '60 del secolo scorso. L'avventura di una famiglia e di un'impresa tutta italiana. È l'epoca del boom economico e il design Made in Italy vive un momento di grande fervore. In una piccola fabbrica nel cuore della Brianza si lavora a ritmi serrati. Lo stabilimento sorge nel distretto di Meda, famoso da sempre per gli imbottiti e per l'abilità dei suoi artigiani tappezzieri. Uno di loro, Giulio De Mango, aveva aperto già un decennio prima la sua impresa. Esordi da terzista e poi, fra i pionieri di un settore in via di espansione, il lancio del proprio marchio: Bodema. Da quasi 50 anni un'azienda a conduzione familiare, oggi alla seconda generazione. Un percorso in evoluzione, aperto agli scenari internazionali. E un modo inconfondibile, fin da allora, di pensare e costruire divani, poltrone, letti e trasformabili.

The meaning of roots, the opening to the world. In the global dimension of the markets and ideas, roots are a valuable asset. The fil rouge of a history that begins in the latest 60s of the last century. The adventure of a family and a full Italian business. It is the time of the economic booming and the Made in Italy design experiences a moment of great fervour. In a small factory in the heart of Brianza they are working at lightning speed. The plant is located in Meda district, forever famous for upholstered products and for the skill of its craftsmen upholsterers. One of them, Giulio De Mango, had already opened a decade before his company. He started as a contractor and then, among the pioneers of a sector in growing expansion, he launched his own brand: Bodema. For nearly 50 years a family business, today in its second generation. An evolving path, open up to international scenarios. And a unique way, since then, to think and build sofas, armchairs, beds and sofasbeds.

Das Gefühl von seinen eigenen Wurzeln zu haben und Weltoffenheit zu leben. In der globalen Dimension von Märkten und Ideen sind eigene Wurzeln ein kostbares Gut. Der rote Faden einer Geschichte, die in den 60er Jahren des letzten Jahrhunderts beginnt. Das Abenteuer einer Familie und eines rein italienischen Unternehmens. Es ist die Epoche des wirtschaftlichen Aufschwungs und das, Made in Italy' und italienisches Design erlebt einen großen Erfolg. In einer kleinen Fabrik im Herzen von Brianza arbeitet man mit engen Zeitrahmen. Die Fabrik befindet sich im Bezirk von Meda, der schon immer für seine gepolsterte Möbel und für die Fähigkeit seiner Kunsthandwerker berühmt ist. Einer von ihnen, Giulio De Mango, hatte sein Geschäft vor zehn Jahren eröffnet. Als Drittunternehmer zuerst und dann als einer der Pioniere einer expandierenden Branche, die Einführung seiner eigenen Marke: Bodema. Seit fast 50 Jahren ein Familienbetrieb, heute in der zweiten Generation. Ein sich entwickelnder Weg, offen für internationale Szenarien. Bekannt für seine einzigartige Art und Weise, Sofas, Sessel, Betten und Schlafsofas zu entwickeln und zu produzieren.

Le sens des racines, l'ouverture sur le monde Dans la dimension mondiale des marchés et des idées, les racines sont un bien précieux. Le fil rouge d'une histoire qui commence dans les années 60 du siècle dernier. L'aventure d'une famille et d'une entreprise entièrement italienne. C'est l'époque du boom économique et le design Made in Italy vit un moment de grande ferveur. Dans une petite usine au cœur de la Brianza, on travaille à un rythme soutenu. L'usine est située dans le district de Meda, depuis toujours célèbre pour ses tapisseries et pour le savoir-faire de ses artisans tapissiers. L'un d'entre eux, Giulio De Mango, avait ouvert son entreprise une décennie auparavant. Il a commencé comme entrepreneur compte de tiers et puis, parmi les pionniers d'un secteur en expansion, le lancement de sa propre marque: Bodema. Depuis près de 50 ans, une entreprise familiale, maintenant dans la deuxième génération. Un chemin évolutif, ouvert aux scénarios internationaux. C'est depuis lors une façon indubitable de penser et de construire des canapés, des fauteuils, des lits et des sofas-lits.

Значение корней, открытие миру. В глобальном измерении рынков и идей - корни играют немаловажную роль. Наша история берет свое начало в конце 60-х годов прошлого века. Семейная компания и истинный итальянский бизнес. Это время экономического подъема и небывалых достижений в итальянском дизайне. На маленькой фабрике в самом центре региона Брианца кипела работа. Фабрика расположена в городке Меда, всемирно известном традициями производства мягкой мебели и талантливыми мастерами. Компания одного из них, Джулио ДеМанго, существует уже 10 лет. На заре своей деятельности, компания Де Манго производила мебель для других компаний, но впоследствии в целях завоевания рынка, он запустил собственный бренд Bodema. На сегодняшний день, спустя более 50 лет, уже второе поколение ведет семейный бизнес. Эволюция компании позволила выйти на международные рынки. И с того момента начался уникальный путь производства диванов, кресел, кроватей и раскладной мебели.

根源的意义，对世界的开放性在市场和思潮的全球层面中，根源是一种宝贵的资产。公司历史始于上个世纪60年代，一路见证了意大利商业的振兴之旅。这是个经济蓬勃发展的时代，是意大利制造设计的充满激情的时刻。在布里安扎市中心的一家小工厂里，他们正快节奏得工作中。该工厂位于梅达地区，以软装家具和工匠室内装潢技术而闻名。其中之一佼佼者就是Giulio De Mango，他在公司成立前十年就已经从事这个行业了。他最初是一名承包商，然后，在这个不断扩大的行业先驱中，他推出了自己的品牌：Bodema。近50年来，家族企业已进入第二代，开启了一条向国际市场不断发展的道路。自创立以后，Bodema以一种独特的思维方式来设计和制造沙发、扶手椅、床和沙发床。

PHILOSOPHY

— DEVELOPING TRENDS, INVENTING NEW CLASSICS

Elaborare tendenze, inventare nuovi classici. Dal micro territorio di Meda Bodema attinge fin dall'inizio la sua linfa vitale. Un saper fare e un senso della bellezza che ne alimentano la creatività. In azienda si elaborano tendenze che segnano nuovi stili dell'abitare. Colori, materiali, forme, funzioni. E una fascinazione per tutto ciò che è meccanismo e movimento; divani che mutano forma, che cambiano grazie a ingegnosi accorgimenti tecnologici. Sistemi di sedute dove la modularità trova sempre nuove soluzioni. Trasformabili che nobilitano l'idea di divano letto, da arredo di servizio a oggetto elegante e di carattere. Il design secondo Bodema è sofisticato, caldo, personale. Capace, attraverso ogni singolo progetto, di dire qualcosa di nuovo che resta nel tempo. Stimoli e idee nascono anche dalla collaborazione con affermati architetti e designers.

Developing trends, inventing new classics. From the micro area of Meda Bodema gets its lifeblood from the start. A know-how and a sense of beauty which feed its creativity. In the company they work out trends, which mark new home styles. Colours, materials, shapes, functions. And a fascination for all that is mechanism and motion. Sofas turn into different shapes and change thanks to ingenious technological tricks. Seating systems where modularity always finds new solutions. Convertible sofas that ennoble the idea of sofabed, from service furniture to elegant and key-distinguishing object. Design according to Bodema is sophisticated, warm, personal. Capable, through every single project, to say something new that remains over time. Ideas coming out from the collaboration with successful architects and designers

Trends entwickeln, neue Klassiker erfinden. Aus dem Mikrogebiet von Meda, zieht Bodema von Anfang an sein Lebenselixier. Ein Know-how und ein Gefühl der Schönheit, die Kreativität fördert. Im Unternehmen werden Trends entwickelt, die neue Lebensstile kennzeichnen. Farben, Materialien, Formen, Funktionen. Und eine Faszination für alles, was Mechanismus und Bewegung ist; Sofas, die ihre Form verändern, ändern sich dank ausgeklügelter technologischer Geräte. Sitzsysteme, bei denen Modularität immer neue Lösungen findet. Sofas die die Idee eines Schlafsofas veredeln, von Servicemöbel bis zu eleganten Objekten mit Charakter. Bodemas Design ist raffiniert, warm und persönlich. Jedes einzelne Projekt befähigt, etwas neu zu erzählen, das in der Zeit bleibt. Anregungen und Ideen entstehen auch aus der Zusammenarbeit mit Architekten und Designern.

Développer les tendances, inventer de nouveaux classiques. Du micro-territoire de Meda, Bodema tire sa force de vie dès le début. Un savoir-faire et un sens de la beauté qui nourrissent la créativité. Des tendances sont en train de se développer dans l'entreprise qui marquent de nouveaux modes de habiter. Couleurs, matériaux, formes, fonctions. Et une fascination pour tout ce qui est mécanisme et mouvement; canapés qui changent de forme, grâce à des dispositifs technologiques ingénieux. Des systèmes de sièges où la modularité trouve toujours de nouvelles solutions. Des convertibles qui ennoblissent l'idée d'un canapé-lit, depuis meubles de service maintenant objets élégants et avec caractère. Selon Bodema, le design est sophistiqué, chaleureux et personnel. Capable, à travers chaque projet, de dire quelque chose de nouveau qui reste dans le temps. Stimuli et idées naissent également de la collaboration avec des architectes et des designers établis.

Создание трендов, открытие новой классики. С первых дней Bodema черпает свою жизненную силу из маленького округа Меда. Ноу-хау и чувство красоты, которые питают креативность. Компания работает над трендами, которые формируют современный домашний стиль. Цвета, материалы, формы и функциональность. Своеобразная утонченность всего, что связано с механизмами и движением. Диваны приобретают различные формы и меняются благодаря технологической изобретательности. Модульность всегда находит новые решения в системах сидений. Диваны-трансформеры обновили идею диван-кровати, от служебной мебели до элегантного и выразительного предмета. Главные принципы дизайна Bodema — утонченность, тепло и индивидуальность. Это способность через каждый новый проект сказать что-то новое, то, что остается с течением времени. Новые стимулы и идеи рождаются в результате сотрудничества с архитекторами и дизайнерами.

发展趋势, 创造经典从梅达的微观领域, Bodema从一开始就把握住了脉搏: 蕴含创造力的专业知识和美感。公司引导新生活方式的趋势, 这涉及到新的家居风格、颜色、材料、形状、功能、以及对机械及其运动规律研制的激情。沙发由于巧妙的技术技巧可以有不同的形状和变化; 座椅系统的模块化的新解决方案; 体现沙发床理念的可转换沙发。。从舒适的家具到新颖别致的物件。Bodema的设计是精致的、温暖的、个性的。通过每一个项目, Bodema能够表达新的内容, 通过与成功的建筑师和设计师合作, Bodema有了很多新想法。

CUSHIONS

— DESIGN AS CAREFUL TAILORING JOB
ON DETAILS

Una cucitura insolita e un'imbottitura più ricca. Un colore selezionato tra infinite possibili sfumature. Differenze a volte impercettibili che fanno di quel pezzo qualcosa di unico. Perché Bodema concepisce il design come attento lavoro sartoriale sui dettagli.

An unusual stitching and a richer padding. A color selected among endless possible nuances. Differences, which may be sometimes imperceptible, but which make that piece something unique because Bodema conceives design as careful tailoring work on details.

Eine ungewöhnliche Naht und dickere Polsterung. Eine Farbe, die aus unendlich vielen möglichen Nuancen ausgewählt wird. Unterschiede, die manchmal nicht wahrgenommen werden können, machen das Stück einzigartig. Denn Bodema versteht Design als sorgfältige Detailarbeit.

Une couture inhabituelle et un rembourrage plus riche. Une couleur choisie parmi une infinité de nuances possibles. Des différences parfois imperceptibles font de cette pièce un objet unique. Parce que Bodema conçoit le design comme un travail de personnalisation minutieux.

Необычный шов и более богатая набивка. Цвет выбран среди бесконечных возможных нюансов. Различия иногда незаметны, что делает этот предмет чем-то уникальным. Потому что Бодема воспринимает дизайн как тщательный пошив деталей.

不寻常的接缝方式和更丰富的填充物。Bodema 从细微差别中精挑细选色彩，赋予这件作品独特性，使它更加温馨舒适和更受欢迎。Bodema 将设计视为细节上的精心剪裁。

LA TECNICA

In Tibet si usa una tecnica di tessitura dei tappeti esclusiva. Davanti all'ordito viene, temporaneamente, posta una bacchetta che definisce l'altezza del pelo. Un filo continuo viene avvolto intorno a due fili dell'ordito e, successivamente, una volta intorno alla bacchetta. Quando è completata un'intera linea di fili essi vengono tagliati per creare i nodi.

THE PROCESS

In Tibet an exclusive rug weaving technique is used. A wand, which defines the height of the hair, is temporarily placed in front of the warp. A continuous thread is constantly wrapped around two threads of the warp and later one time around the wand. When the entire threads line is completed, they are cutted to be knotted.

DIE TECHNIK

In Tibet wird eine exklusive Teppichwebtechnik angewendet. Ein Rührstab, das die Höhe des Haares definiert, wird vorübergehend vor die Kette gelegt. Ein durchgehender Faden wird einmal um zwei Fäden der Kette und anschließend um den Stab gewickelt. Wenn eine ganze Reihe von Fäden abgeschlossen ist, werden sie geschnitten, um die Knoten zu erstellen.

LA TECHNIQUE

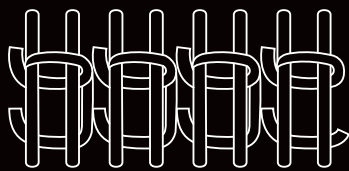

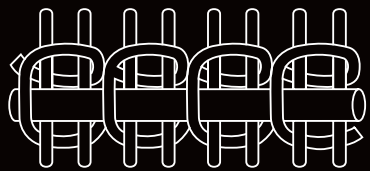

Au Tibet, une technique exclusive de tissage de tapis est utilisée. Une baguette, qui définit la hauteur du cheveu, est temporairement placée devant la chaîne. Un fil continu est enroulé autour de deux fils de la chaîne et, ensuite, autour de la baguette une fois. Quand une ligne entière de fils est terminée, ils sont coupés pour créer les nœuds.

ТЕХНИКА

В Тибете мы используем технику эксклюзивное ковроткачество. Перед варпом приходит временно, подать палочку который определяет высоту волос. Приходит непрерывная нить обернутый вокруг двух нитей основы и, впоследствии, один вокруг палочки. Когда все завершено линия проводов они приходят вырезать, чтобы создать узлы.

地毯

在西藏,工匠们会使用独特的地毯编织技术。将决定纱线长度的纱棒放在经纱机前面,一根连续的纬线不断缠绕在经纱机的两根经线上,然后围绕纱棒缠绕下来,当全部经纬线编织完成时,它们被切割然后打结成毯子。
