ORSAN

ORSAN: TRENT'ANNI DI ESPERIENZA VENEZIANA

ORSAN:
A 30-YEARS
VENETIAN
EXPERIENCE

ORSAN nasce a Venezia oltre 30 anni fa dalla necessità ed esperienza che l'edilizia chiede al mercato nella fase innovativa e di trasformazione di quel periodo, a seguito della crescita del comparto edile nel territorio veneziano. Si espande rapidamente nel territorio nazionale grazie all'idea innovativa degli intonaci deumidificanti, ideati proprio nei laboratori ORSAN che vengono messi a dura prova nell'ambiente veneziano, per testarne qualità e risultati. Altro step di crescita è l'applicazione della tecnologia al settore della impermeabilizzazione e per questo motivo vengono stretti rapporti commerciali con aziende del settore, ad esempio Firestone. Sempre con particolare attenzione al mercato edile Orsan negli anni amplia la proposta verso il settore spostandosi verso le finiture per pavimenti e pareti sia nell'ambito commerciale che residenziale.

ORSAN was born in Venice over 30 years ago by the need and experience required by the building construction market in the innovation and transformation phases of that period, as a result of growth in the building construction sector in the Venice area.

The society grew up and expanded in the national territory with the innovative idea of dehumidifying plasters, produced by ORSAN laboratories and so tested in the Venetian area, to prove quality and show results.

Another step of growth is the application of technology to the field of waterproofing and for this reason they started and set up commercial partnerships with companies such as Firestone.

By paying particular attention to the building construction market, ORSAN's business grew, over the years, and moved into the field of the floor and walls finishes both in commercial and residential building construction markets.

ORSAN

DECORATIVI VENEZIANI

venetian decors

Decorativi Veneziani è una linea di rivestimenti per interni ed esterni.

A base calce naturale o a base acrilica con tutta la tecnicità derivata da anni di esperienza dei fondatori del progetto e con lo stile riconosciuto in tutto il mondo dei rivestimenti veneziani.

I principali prodotti presentano diverse tipologie di struttura: dalla grana fine per ottenere finiture interne di alto pregio, alla grana più importante per rivestimenti esterni corposi e dal grande impatto tridimensionale.

Con 140 decorativi la gamma è formata dai colori più apprezzati nel campo dei rivestimenti murali.

La gamma si completa con una serie di prodotti tecnici: dai sottofondi, alle cere o ai coloranti per personalizzare ulteriormente il rivestimento.

"Venetian decors" is a line of coatings for interior and exterior. A natural or acrylic lime based render line with all the technicalities and peculiarities derived from many years of experience of the project founders and the style recognized throughout the world of Venetian coatings.

The main products are of various types of structure: a fine grain for the interior high-quality fittings, or a thicker and solid grain for important exterior cladding characterized by a three-dimensional impact.

The 140 decors range includes the most popular colors in the field of wall coverings.

The range is enhanced by a series of technical products ranging from foundations, waxes or pigments for building materials to customize each coating.

The background features a dynamic, abstract composition of overlapping, wavy bands in vibrant blue, green, and purple. These bands curve and flow across the frame, creating a sense of movement and depth. The colors are bright and saturated, set against a lighter, off-white background. The overall effect is modern and energetic.
