Coco

Nahtrang Studio

Coco, an organic piece with a light structure and warm glow, comes from a classic spherical lighting design gently moulded through gravity. Elegant, compositional and asymmetrical, Coco adapts to any space providing personality and a subtle sensation of weightlessness. The collection comprises a single pendant, a double pendant and a chandelier with a metal structure and different globes in perfect harmony.

H

Benedito Design

The H luminaire collection is a contemporary reinterpretation of the classic tabletop tapered shade lamp. With essential, archetypal geometries, the shade's lightness and light source stand out, resting on a generous diameter base that gives the whole ensemble strength and sturdiness. Its indirect lower and upper light provides a comfortable, warm illumination, enhancing the surrounding space.

This collection offers a wide range of possibilities to illuminate spaces with a soft lighting, using pieces that provide a significant representational value and an important overall cohesive look.

Glam

Josep Patsí

Personality and elegance are some ways to describe Glam. Made of glass and carefully designed, they transform it into an elegant, integrated collection. The meticulous workmanship of the glass and its different shapes, propitiate a pleasant, warm lighting effect. An immersive effect that blends all the space's elements into a perfect ambience.

Napa

Nahtrang Studio

Inspired by Scandinavia, Napa has a simple, subtle structure. The timelessness of the piece lies in the soft lines of the shade, which supported by a handle gives rise to a focal point at the top. Napa provides practical, functional lighting capable of harmonising any space, from a room to an office or commercial space, either alone or in combination.

Attic

Nahtrang Studio

The Veneto collection of pendant lights reinterprets classic luxury with a luminaire in simple shapes and fine finishes. The sculpted shape of the structure adds personality while the gold detail provides a finish and sense of balance. Veneto offers diffuse and delicate light that is warm and intimate and comes in individual or multiple versions.

Noway

Francesc Vilaró

Dematerialisation, and how light takes centre stage, are two of the objectives behind Noway's conceptualisation and design. The result is a luminaire with a striking weightlessness and lightness effect that offers high visual comfort with minimal fuss. This collection offers different ideas, from purer versions to more complex ones, playing with light effects and providing a more visual presence.
