IL GIARDINO DI LEGNO

Il Giardino di Legno progetta e produce con passione nel settore dell'arredamento, con particolare attenzione alla lavorazione del legno ed ai materiali per l'outdoor.

Il carisma silenzioso e le eclettiche competenze professionali ne caratterizzano non solo la produzione ma anche il supporto offerto al cliente e al progettista. La combinazione armonica di molteplici professionalità scaturisce in un gruppo di lavoro che affronta ogni progetto come una sfida, ogni richiesta del cliente come una mission, ogni ricerca di un nuovo materiale come uno stimolo per l'approfondimento delle proprie esperienze e conoscenze.

Una raccolta di oggetti d'arredo in cui differenti essenze, materiali e cromie si mescolano e si miscelano nel processo creativo per offrire nuove soluzioni ed essere fonte d'ispirazione per l'arredamento del vostro Giardino di Legno.

Il Giardino di Legno designs and produces furniture with passion, focusing in particular on woodwork and outdoor materials.

The quiet charisma and the versatile professional skills characterize not only our production but also the support offered to all customers and designers. Our many different abilities combine seamlessly to give birth to great teamwork: we consider every project as a challenge, every request as a mission, every search for a new material as a way to boost and broaden our knowledge and experience.

In our furniture line, different essences, materials and colours are mixed and blended in the creative process so as to offer new solutions and become a source of inspiration when decorating your garden.

ALICE

design by CRS SILAT

ALIC0243 + ALIC0243-CUS

Realizzata in rattan naturale intrecciato a mano e finito con finitura pigmentata *natural* semi-lucida e dettagli in nero. Tavolini con piano intrecciato in vimini e sopra-piano in vetro. Piedini in Teflon. La linea comprende i tavolini bassi rotondi, dalla base traforata, e la poltrona con ampio schienale arrotondato dalla forma simile a quella della coda di un pavone: riproposizione della famosa 'Peacock chair' con dettagli in nero. Adatta ad esterni coperti.

Made of hand-woven natural rattan with semi-glossy natural color finish and black details. Occasional and low tables with woven wicker and glass top. Teflon feet. The line includes low round tables, with perforated base, and the armchair with generously-sized rounded peacock-tail backrest: a reinterpretation of the famous "Peacock chair", detailed in black. Suitable for covered outdoor spaces.

BONGO

design by CRS SILAT

I tavolini Bingo, Bango e Bongo sono intrecciati in vimine "Kubu Gray". Si tratta di fibra naturale che viene colorata con un metodo tradizionale e totalmente naturale che conferisce il tipico colore grigio, molto elegante, che ben si abbina con elementi moderni. Il materiale, resistente ma naturale, li rende perfetti per aree esterne coperte e possono essere usati anche come sgabelli o come comodini. I piani sono realizzati in massello di Teak a finitura naturale.

The Bingo Bango Bongo tables are made of woven "Kubu Gray" wicker: a natural fibre dyed using traditional, natural methods which gives its extremely elegant typical soft grey colour that seamlessly blends with modern elements. This natural but strong material makes the tables perfect for covered outdoor spaces and can be also used as stools or side tables. Fine Sanded finished solid Teak tops.

CLASSICA

design by CRS SILAT

Interamente realizzata in legno massello di teak a finitura naturale con ferramenta in ottone. Design e materiali legati alla tradizione e grande varietà di misure e accessori disponibili. Le panchine, con o senza schienale, sono disponibili in differenti misure. Le panche di forma ottagonale sono pensate per circondare il tronco di un albero. Fanno parte della collezione Classica sedie e poltroncine pieghevoli, lettini e diversi tavoli estensibili disponibili in svariate forme e dimensioni, con piano rettangolare o rotondo.

Entirely made of Fine Sanded solid teak wood with brass hardware. Tradition-bound design and materials and a wide choice of sizes and accessories. The benches, with or without backrest, are available in various sizes, too. The octagonal benches are designed to encompass the tree trunk. Folding chairs and lounge chairs, sun loungers and various extendible tables available in different shapes and sizes with rectangular or round top are all part of the Classica collection.

FOSSIL

design by TIME

Il legno fossile od 'opale xiloide' è il risultato di un tronco completamente mutato tramite processo di mineralizzazione, nel quale tutte le parti organiche vengono sostituite da minerali, per lo più silicati come il quarzo, che ne hanno permesso la conservazione attraverso diverse ere geologiche mantenendo la tipica struttura fibrosa del legno, i caratteristici anelli concentrici di accrescimento e persino le tracce dei tarli che vivevano un tempo nel tronco. Ogni pezzo è ovviamente unico, ma può essere lucidato o grezzo, con corteccia o senza e tagliato della dimensione richiesta dal cliente.

Petrified wood is the name given to fossilized remains of terrestrial vegetation. It is the result of a tree having completely transitioned to stone by the process of permineralization. All the organic materials have been replaced with minerals mostly silicates such as quartz, allowing them to be preserved along the different geological eras while retaining the original structure of the stem tissue as well as the concentric rings and traces of the worms, once living in the trunk. Every single piece is unique, but we supply it with bark or polished and cut on the customer's requested size.

FOSS0462

FOSS0462

GEORGETOWN

design by CRS SILAT

Struttura costituita da componenti arrotondate in legno di Teak e caratterizzata dalla finitura a Olio e Cera che conferisce il tipico color miele. Le panche e poltroncine presentano schienali curvi, le cui sinuose forme proseguono nei braccioli. Il divano, con schienale alto è completato da cuscini in poliuretano rivestiti in tessuto acrilico sfoderabile e con gommapiuma protetta da fodera interna, può essere completato da poggiatesta modulari che lo trasformano in un ampio e comodo letto da giorno o in una *chaise longue*. Le poltroncine possono essere arricchite da un cuscino che completa lo schienale e ne segue la curvatura. I tavoli sono disponibili con piani in vetro o in Teak di diversa forma. La collezione comprende anche dei lettini per esterno e ampi vassoi di forma ottagonale, disponibili in due dimensioni.

Frame of rounded teakwood components with Oil & Wax finish which endows them with their typical honey colour. The sinuous design of the rounded backrests of the benches and lounge chairs is echoed in the armrests. The high-back sofa, supplemented by polyurethane cushions lined with removable acrylic fabric and with foam protected by an internal lining, can be completed with modular footrests to convert it into a large, comfortable daybed or chaise-longue. The dining armchairs can be fitted with a cushion that completes the backrest and follows its curve. The tables are available with differently-shaped glass or Teak wood tops. The collection also includes sun loungers and large octagonal trays available in two sizes.

LOGI5310

LOGI5310

LUI & LEI

design by FEDERICA FERRARA

Struttura in tubolare di alluminio trattato con bagno di pulitura e verniciato a polveri. Sedute e schienali delle sedie e dei lettini in Batyline® saldato ad alta frequenza. Per divani e poltrone è necessario l'utilizzo di un cuscino per seduta e schienale, in poliuretano espanso a densità differenziata o a celle aperte. Piani dei tavoli in massello di Teak o vetro satinato. 'Lui' di vocazione maschile ha una finitura in elegante nero satinato opaco mentre 'Lei' in sciccoso bianco lucido. Due finiture diverse nel colore e al tatto che ben si abbinano con il legno di Teak in finitura naturale, con il vetro satinato ed il tessuto tecnico Ferrari utilizzato nei diversi modelli come proposta da catalogo.

Cleansed and powder coated tubular aluminium structure. Chair and sunbed seats and backs in high frequency welded Batyline®. Sofas and armchairs require the use of a cushion for the seat and back, made of low/high density polyurethane foam or flow-through foam. Teak wood or frosted glass table surfaces. 'Lui', Italian word for Him, has a masculine feel, with elegant black matte satin finishes, while 'Lei', meaning Her, articles are in a chic semi glossy white. Two finishes different in colour and texture perfectly matching with the Fine Sanded Teak wood, the frosted glass and the Ferrari technical fabric proposed in Black as standard version for Lui items and in white for Lei items.

MAUI

design by CRS SILAT

Struttura in alluminio vergine con intreccio in fibra sintetica. Curve ridotte al minimo, linee decise e squadrate. Sedute lounge, sistema componibile e letti da sole completati da cuscini in gommapiuma con fodera protettiva rivestita in tessuto acrilico sfoderabile. Piedini in alluminio con vite regolabile per adattarsi a pavimentazioni non in piano. Elementi di bloccaggio permettono di creare elementi solidali tra loro adatti anche ad uso intensivo. Poltroncine con rivestimento del bracciolo in legno di Teak. Tavoli con piedini in alluminio ed elemento antigraffio in Teflon. Sovra-piano in vetro disponibile su richiesta. Proposto in nero.

Virgin aluminium frame covered by synthetic fiber with minimalist curves and bold, clean-cut lines. Lounge chairs, modular system and sun loungers completed by foam cushions with internal protective lining and removable acrylic fabric cover. Aluminium feet with adjustable screw for uneven floors fitting. Fastening elements make it possible to combine the elements at will, also for intensive use. Lounge chairs with Teak wood armrest. Tables with aluminium feet and anti-scratch Teflon element. Glass top available on request. Standard colour is Black.

MOON

design by CRS SILAT

Realizzata in legno di teak a finitura naturale e con ferramenta in ottone. La sedia a sdraio è disponibile con ferramenta in ottone oppure in acciaio. Ad eccezione del dondolo, smontabile, l'intera collezione è caratterizzata da elementi pieghevoli con ingombri minimi quando chiusi.

Crafted in Fine Sanded teak wood with brass hardware. The deck chair is available with brass or stainless steel hardware. Except for the rocker, which can be removed and the structure dismantled, the entire collection is characterized by folding elements that require minimum storage space.

PEBBLES

design by SAM SANNIA

La collezione di arredi per esterno Pebbles si ispira alla rotondità dei sassolini consumati dal mare (i 'pebbles', o piccoli ciottoli). La forma degli elementi principali richiama l'idea di morbidezza, enfatizzata dal contrasto con la linearità della struttura e dal calore del legno massello. La finitura proposta è levigatura fine naturale.

The outdoor furniture collection Pebbles is inspired by the roundness of the seawater-worn little rocks (the 'pebbles'). The warmth of the wood and the rounded shapes, in contrast with the more linear structure, give pleasantness to these furnishings, even in the everyday use. Standard version is in Fine Sanded Teak wood.

RIVIERA

design by CRS SILAT

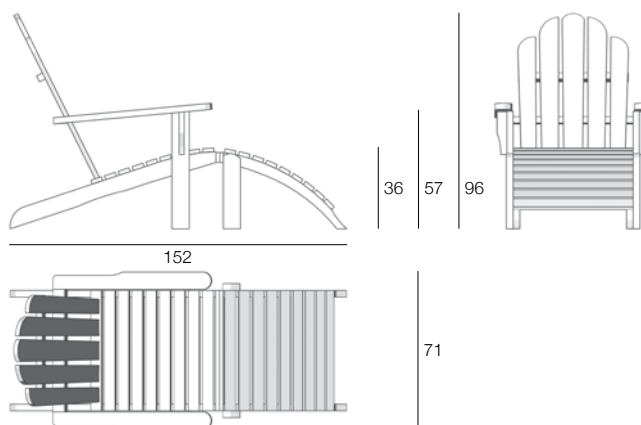

Questa sedia sdraio in legno di Teak con poggiatesta è la riproposizione di una famosissima sedia che fu disegnata nel 1903 da Thomas Lee, quando era in vacanza a Westport, New York, per la sua residenza estiva. La sedia venne poi chiamata 'Westport Plank Chair' e conosciuta anche come 'Adirondack'. La collezione Riviera si caratterizza per uno schienale e una seduta arrotondati; i braccioli sono larghi e con un ampio piano d'appoggio. Il legno è proposto in finitura a levigatura fine naturale.

This Teak wood deckchair with foot rest is a re-interpretation of the famous chair originally designed by Thomas Lee in 1903 for his summer home when holidaying in Westport, New York. The chair was subsequently dubbed the "Westport Plank Chair" and also known as "Adirondack". The Riviera collection features rounded backrest and seat and long, flat arms able to accommodate a refreshing drink. Fine Sanded is the standard finishing.

STLA0234 + STLA0234-CUS

Realizzata in legno massello di Teak. I cuscini sono sfoderabili e realizzati in tessuto acrilico da esterno. La bellezza materica del legno rimane il filo conduttore della collezione: naturalità ed eco sostenibilità. La generosità degli elementi imbottiti costituisce un elemento caratterizzante per le sedute da esterno. I lettini prendisole sono disponibili in versione singola o doppia e sono dotati di ruote in Teflon con cuscinetti a sfera, ideali per il bordo piscina. Personalizzazioni per posizionamento in spiaggia da effettuarsi su richiesta. Il legno è proposto in finitura a levigatura fine naturale.

STLA0338 + STLA0338-CUS

Made of solid Teak. Cushions removable cover made of acrylic fabric suitable for outdoor use. The beauty of the wooden matter is the leitmotif of the collection: naturalness and ecosustainability. The generosity of upholstered elements is a feature for outdoor seating. The sun beds are available in single or double version and are fitted with Teflon wheels with bearings, ideal for pool side use. Customisations for positioning on beach available on request. Fine Sanded is the standard wood finishing.

SAVANA

design by CRS SILAT

Realizzata in massello di Teak, è una collezione di sedute e tavolini da esterno con una linea discreta e funzionale. I tavoli bassi sono disponibili anche con doppio ripiano. I divani e le poltrone sono forniti con ampi cuscini sfoderabili in tessuto acrilico da esterno. Gli sgabelli alti, disponibili con o senza schienale, sono minimali e lineari nella forma e comodissimi nell'utilizzo, così come le sedie sdraio pieghevoli. Il legno è proposto in finitura a levigatura fine naturale.

A collection of solid Teak chairs and tables for outdoor use with an understated, functional design. The low tables are also available with double top. The cushions of the sofas and chairs are fully removable and made of acrylic fabric suitable for outdoor use. The high stools, available with or without backrests, are minimal and linear in shape and comfortable to use as well as the folding deck chairs. Fine Sanded is the standard finishing.

SUAR

design CAMILLA LAPUCCI E LAPO BIANCHI LUCI

La collezione Suar esalta gli spessori del legno massello con una struttura slanciata, caratterizzata da braccioli e schienali dai tagli diagonali. La linea comprende panche in tronco, divano e poltrone, letti da esterno, elementi compositivi, tavolini e pouf, oltre a tavoli di grandi dimensioni creati con piani in un unico taglio di legno massello di Suar. La finitura oliata è la finitura standard per questo tipo di legno.

Suar collection enhances the thickness of solid wood with a linear design, featured by diagonal cut armrests and backrests. The collection includes log bench, sofa and lounge chairs, outdoor beds, compositional elements, tables and ottomans, and tables made out of a single slice of solid Suar wood. Oiled finishing.

TILES

design by CRS SILAT

Pavimentazione a quadrotti in legno di Teak. Disponibili nella misura 30x30cm con base in PVC ed incastro maschio-femmina che mantiene le piastrelle solidali tra loro. Oppure nella misura 50x50cm con base in Teak. Drenanti e di facile posa: possono essere appoggiati direttamente sulla pavimentazione esistente, su un battuto di cemento o direttamente sul terreno. I pavimenti sono realizzati con legno di Teak che proviene dai resti di taglio della lavorazione dei mobili da esterno. Quindi nessun albero è stato abbattuto per la realizzazione di questi pavimenti: belli, durevoli, originali e del tutto eco-compatibili. Il legno è proposto in finitura a levigatura fine naturale.

Teak flooring tiles. Available in 30x30cm size with PVC backing and male-female interlock which ensures that the tiles perfectly fit together. Or in 50x50cm size with Teak backing. Water runoff and easy to lay: can be laid directly on existing flooring or on a cement slab or even directly on the ground. Tiles for flooring are made of Teak wood coming from the cut wastage of the outdoor furniture production, so that no trees were cut for the construction of these beautiful, durable, original and completely eco-friendly floors. Fine Sanded is the standard wood finishing.

VENEZIA

design by CRS SILAT

Struttura costituita da componenti a sezione quadrata in legno di Teak e caratterizzata dall'uso della tela come componente strutturale ed estetica. I divani della serie di sedute modulari Venezia sono realizzati in massello di Teak ed i cuscini sono in poliuretano espanso con fodera di protezione e copertura in tessuto da esterno sfoderabile. Le sedie regista sono in legno di Teak con seduta e schienale in tessuto Ecrù, così come la tela della sedia tripolina che può essere richiesta in versione normale a strato singolo oppure con imbottitura. Ad eccezione dei divani l'intera collezione è costituita da elementi pieghevoli caratterizzati da ingombri minimi quando chiusi. Ferramenta in acciaio ed ottone cromato. Il legno è proposto in finitura a levigatura fine naturale.

Structure made of square section components and characterized by the use of the fabrics as a structural and aesthetic element. The Venezia sectional seating sofas are made of solid Teak and the cushions are in polyurethane foam with a removable outdoor fabric cover. The director's chairs and Tripolina deck chair have wooden structure with seat and back in ecru fabrics. The shape of canvas can be chosen from single layer or padding. Except the sofas, the whole collection is entirely composed of collapsible elements taking up very small space when folded. Hardware in stainless steel and chromed brass. The standard finishing for the Teak is Fine Sanded.

TRIPOLINA

Icona assoluta nel mondo delle sedie pieghevoli, la leggendaria tripolina viene riproposta da Il Giardino di Legno in massello di Teak con tela disponibile in vari colori. Per il massimo comfort viene proposta anche con tela imbottita. Struttura in massello di Teak, ferramenta in acciaio inox e ottone cromato. Il legno è proposto in finitura a levigatura fine naturale.

The legendary butterfly chair Tripolina is a true icon in the world of folding chairs. Il Giardino di Legno has created a version made of solid Teak wood and canvas in different colours. Il Giardino di Legno presents a new padded canvas that makes it even more original, ensuring maximum comfort. Structure in solid Teak wood, hardware in stainless steel and chromed brass. Fine Sanded is the standard wood finishing.

VITTORIA

design by CRS SILAT

Realizzata in massello di Teak con ferramenta in ottone. Smontabile. Dal design classico, queste sedute si ispirano alle panche ideate da Sir Edwin Lutyens a Nuova Delhi unendo l'eleganza delle linee con la resistenza del legno di Teak massello. Il legno è proposto in finitura a levigatura fine naturale.

Made of solid Teak wood with brass hardware. Demountable. Classical design inspired by the benches designed by Sir Edwin Lutyens in New Delhi, a blend of elegant styling and the strength of solid Teak wood. Fine Sanded is the standard wood finishing.

WAIKIKI

design by CRS SILAT

Realizzata in fibra sintetica HDPE Peel da 6mm intrecciata su una solida e leggera struttura in alluminio vergine. Poltroncine e sdraio impilabili. Tavoli da pranzo con piano in Teak. Divani e poltrone con cuscini in gommapiuma e Dacron, rivestiti in tessuto acrilico sfoderabile con fodera protettiva interna. Piedini in alluminio e elemento antigraffio in Teflon. Il legno è proposto in finitura a levigatura fine naturale, la fibra sintetica in colore Natural.

Made of 6mm HDPE Peel synthetic fibre woven on a light but strong virgin aluminium frame. The lounge chairs and deckchairs are stackable. Dining tables with Teak wood top. Sofas and armchairs with foam and Dacron cushions with internal protective lining and external removable acrylic fabric cover. Aluminium feet and antiscratch Teflon element. Fine Sanded is the standard wood finishing. Synthetic fibre is in Natural colour.

WHITE SAND

design by CRS SILAT

I mobili della linea White Sand sono trattati con uno speciale metodo di finitura, un'esclusiva de Il Giardino di Legno. Questo metodo consiste in otto fasi successive che evidenziano il carattere del legno di Teak usato per le strutture e le sedute di sedie e tavoli. Il divano può essere accompagnato da cuscini; la sedia ha seduta e schienale in tessuto tecnico traforato proposto in colore blu.

The furnishings of the White Sand line are treated with a special finishing method, exclusive to Il Giardino di Legno. This method consists of eight subsequent phases aimed to enhance the character of the Teak used for the frames and seats of chairs and tables. The sofa can be fitted with cushions; the seat and backrest of the chair are made with blue technical fabric.

ZEFIRO

design by CRS SILAT

Gli arredi della linea Zefiro sono realizzati con una struttura in solido e leggero tubolare di alluminio, con un rivestimento in poliuretano a cella aperta e tessuto acrilico. I piedini, in alluminio, sono dotati di vite regolabile. Il tavolo basso è in legno di Teak a finitura decapata "White Wash", con ripiano superiore in vetro satinato.

The furnishings of the Zefiro line feature a light but solid tubular aluminium frame lined with open-cell polyurethane and acrylic fabric. The feet are made of aluminium and are equipped with an adjustable screw so that each side can be adapted to guarantee alignment on uneven or irregular surfaces. The low table is made of Teak wood with "White Wash" pickled effect finish with frosted glass top.

OMBRELLONI

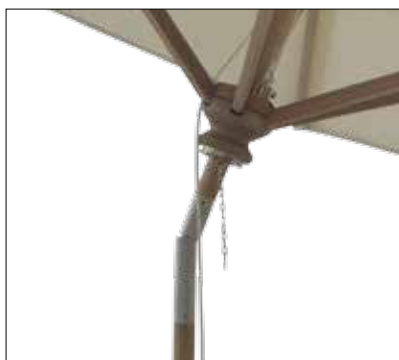

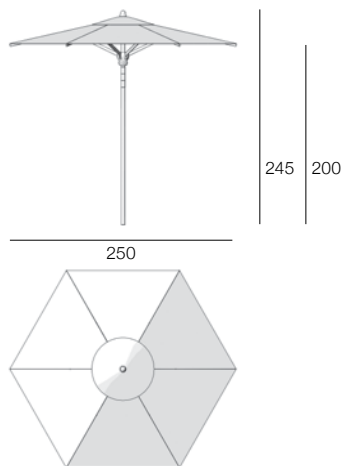

Struttura a palo centrale o laterale, disponibile in legno o in metallo. Dimensioni personalizzabili. Basi in metallo, cemento o marmo. Possibilità di fissaggio diretto a terra. Su richiesta disponibili accessori per il riscaldamento, il raffrescamento, l'illuminazione, la cablatura o le canaline. Copertura in tessuto acrilico o in tessuto tecnico microforato oppure in fibra ETFE impermeabile. L'ombrellone Exotic differisce dagli altri perché la copertura è in paglia naturale 'Canna del Capo'.

Structure with central or side pole, available in wood or metal. Customisable dimensions. Metal, cement or marble bases. It can be fixed directly in the ground. Heating, cooling, lighting accessories, wiring or cable ducts available on request. Acrylic fabric or microperforated technical fabric or waterproof ETFE fibre cover. The exotic parasol differs from the others as the cover is made of Cape Reed natural straw.

CAMILLA LAPUCCI LAPO BIANCHI LUCI

Camilla Lapucci e Lapo Bianchi Luci, l'uno architetto e l'altro designer, lavorano insieme dal 2002 esplorando differenti territori che spaziano dall'architettura all'interior design, dalla direzione artistica al graphic design.

Le differenti singole precedenti esperienze in prestigiosi studi di Architettura di Firenze sono confluite in un percorso comune che ha poi permesso di iniziare un'intensa collaborazione con il mondo dell'interior design e del wellness, occupandosi di progetti di architettura e di interni a livello nazionale ed internazionale, coprendo diversi settori.

Ogni progetto è concepito attraverso un'accurata scelta di materiali e di superfici, di volumi, di pieni e di vuoti in reciproca relazione.

Nel settore delle SPA hanno ricevuto diversi riconoscimenti e premi tra cui il premio del Gran Prix Casalgrande e la menzione speciale al Wellness Design Awards.

Camilla Lapucci and Lapo Bianchi Luci, the first architect and the other designer, have been working together since 2002 to explore different areas, ranging from architecture to interior design, from art direction to graphic design.

The different individual previous experience in prestigious Architecture firms in Florence have merged into a common path that has allowed them to begin an intense collaboration with the world of interior design and wellness dealing with architectural and interior design projects at national and international levels.

Each project is conceived through a careful choice of materials and surfaces, volumes, solids and voids in a mutual relationship.

Concerning the SPA projects, they have received several awards and prizes, including the 1st prize in the Grand Prix Casalgrande in 2007 and a special mention at the Wellness Design Awards 2008.

SAM SANNIA

Sam Sannia, designer di nazionalità italo-inglese, già dalle sue prime apparizioni nel circuito del design viene notato dalla stampa e pubblicato su numerose riviste e libri di settore. I suoi progetti sono stati esposti in diverse mostre come ICFF (New York), New Designers (Londra), e il Salone Satellite di Milano. Oggi Sam Sannia collabora con aziende leader nel settore del mobile.

Sam Sannia, Anglo-Italian designer, has been noticed by the press since its first appearances on the public stage. He has been published on several magazines and books. His projects have been exposed in many different exhibitions: at the ICFF (New York), the New Designers (London), at the Salone Satellite (Milan). Today, Sam Sannia works with several furniture leader companies.

FEDERICA FERRARA

Maestro d'Arte per il Restauro delle Opere Lignee presso l'Istituto d'Arte Amleto Bertoni di Saluzzo, inizia a lavorare presso alcuni studi di architettura dove matura significative esperienze nel campo del design e della progettazione di interni. Si laurea alla Facoltà di Architettura del Politecnico di Torino e collabora con importanti architetti approfondendo gli studi di Interior ed Exterior Design e dedicandosi ad esperienze progettuali in differenti contesti. Dedita con passione alla sperimentazione con le materie lignee e al loro abbinamento a materiali tecnologici, interpreta la casa come un involucro permeabile dove interno ed esterno si fondono utilizzando lo stesso linguaggio compositivo e formale.

Federica Ferrara has qualified as "Maestro d'Arte" in restoration of wood work at the Amleto Bertoni Art Institute in Saluzzo, in the north of Italy. She began working in various architectural firms where she developed significant experience in interior design. She graduated from the Faculty of Architecture at the Politecnico of Turin and works alongside important architects, honing her Interior and Exterior Design skills and working on several types of projects set in different contexts. Her passion for experimenting with wood and combining it with technological material, has led her to interpret the home as a permeable shell where indoor and outdoor spaces merge together using the same artistic and formal language.

A3DIMENSIONI

Lo studio A3DIMENSIONI si dedica alla pianificazione architettonica e all'interior design di complessi residenziali, spazi commerciali, ristoranti, così come di progettazione di spazi espositivi e di vendita in diversi settori. Fondato nel 2008 da Michele Giannetti, Elisabetta Baldi e Luca Donisotti, il lavoro dello studio è caratterizzato dalla capacità di offrire soluzioni di eleganza discreta sulla base di geometrie semplici, dalla sperimentazione con i materiali, dal fondere industria e artigianato con un occhio sempre attento agli aspetti funzionali, tecnici e produttivi. Un gruppo fatto di conoscenze ed esperienze professionali differenti, da cui scaturiscono soluzioni originali segnate dal coinvolgimento dell'utente finale.

A3DIMENSIONI studio is dedicated both to the architectural planning and interior design of residential complexes, business spaces, restaurants and to the planning of exhibition areas and sales spaces in various business sectors. Founded in 2008 by Michele Giannetti, Elisabetta Baldi and Luca Donisotti, this studio offers solutions which convey minimal elegance based on simple geometrical patterns, experimenting with materials, combining industry and handcrafts, always paying special attention to functionality, technicality and production. A team who joins different professional backgrounds and know-how to create original solutions taking into account the customer's requirements at all times.

MAINTENANCE

Il legno è un materiale 'vivo' che, in relazione al luogo in cui viene posizionato, può richiedere una particolare manutenzione. Con l'applicazione dell'olio e della cera, il Teak risulterà perfettamente protetto e ravvivato nel colore. L'olio per Teak può essere usato su legno grezzo come unico e completo agente protettivo, oppure su legno già trattato, purchè preventivamente pulito, come prodotto per la manutenzione. La cera fornisce uno strato protettivo ulteriore, pressoché invisibile, che riduce la penetrazione di macchie di oli e liquidi sulla superficie del legno. Si tratta di una cera in pasta di colorazione neutra, costituita da una miscela di elementi naturali selezionati tra cui cera d'api, cera carnauba ed essenza di trementina. I kit di manutenzione de Il Giardino di Legno sono ideali per lucidare e proteggere i mobili e gli oggetti in legno di Teak.

Wood is a "living" material which, depending on where it is placed, can require a particular maintenance. The Teak wood will result perfectly protected and brightened up the colour applying oil and wax. The oil for teakwood can be used on raw wood as single and complete protective agent or on already treated wood, provided that it has been cleaned before, as maintenance product. The wax provides a further protective layer, almost invisible, avoiding the food, oil and liquid stains to seep through the wood surface. It consists of a colourless wax paste, made of a mix of selected natural elements among which beeswax, carnauba wax and turpentine gum. The maintenance kits by Il Giardino di Legno are suitable to polish and protect teakwood furniture and objects.

FINITURE

Tutti i manufatti lignei vengono prodotti con legno certificato e sottoposto a rigorosi controlli sia interni che da parte delle autorità competenti, lungo tutto il processo produttivo dalla piantagione alla consegna, secondo la rigida normativa europea FLEGT. Il legno utilizzato è legno di Teak della migliore qualità, disponibile nelle finiture 'Fine Sanded', ossia levigatura fine, 'Oil & Wax' eseguita con olio e cera, 'Java Brown' caratterizzata dalla pigmentazione scura color testa di moro, 'White Wash' e 'White Sand' dall'effetto decapato.

Per gli arredi della collezione Suar, viene usato legno massiccio tropicale di Suar per le sue caratteristiche crepe che, selezionate in fase di taglio e produzione, contraddistinguono la collezione. Proposto con levigatura grezza e finitura ad olio.

FINISHING

All the wooden manufactured products are made of certified wood accurately controlled both by our staff and by the competent authorities during the entire production, from plantation to delivery, in compliance with the FLEGT strict European regulations

Wooden collections are made with the best quality teak wood available in different finishes: 'Fine Sanded', 'Oil & Wax', 'Java Brown' characterized by dark brown pigmentation, 'White Wash' and 'White Sand' with pickled effect.

Suar furniture collection is entirely made of Suar tropical hardwood with raw sanding and oil finish. It is characterized by the cracks, suitably selected when cut and produced.

The stainless steel is a ferrous alloy that, thanks to nickel and chromium, is highly corrosion-

FINITURE

L'acciaio inossidabile è una lega ferrosa che, grazie al contenuto di nichel e cromo, è molto resistente alla corrosione. L'alluminio viene utilizzato per creare le strutture interne dei mobili in rattan: preventivamente trattato e verniciato per una migliore protezione agli agenti atmosferici, viene successivamente utilizzato come supporto per l'intreccio della fibra sintetica. Per l'uso esposto vengono utilizzati tubolari di alluminio vergine sottoposti a bagni di pulitura e verniciati a polvere.

Per gli intrecciati sono impiegate fibre sintetiche a base polietilenica che hanno qualità uniche di resistenza ai raggi UV, di riciclabilità e di resistenza agli sbalzi di temperatura. Inoltre non necessitano di manutenzione e sono insensibili a funghi e parassiti.

I piani in vetro hanno differenti bordature a seconda del modello e sono disponibili trasparenti, satinati, o fumè.

Il Batyline® è un tessuto che combina l'eleganza delle fibre naturali con la performance del tessile industriale. Gli imbottiti standard sono in poliuretano a densità differenziata, disponibili su richiesta imbottiture drenanti o a cella piena. I tessuti standard a rivestimento della cuscineria sono in acrilico colore ecrù.

Su richiesta possono essere usati tessuti colorati Sunbrella® o di altro tipo a scelta del Cliente.

GW - Vetro Latte / White Glass

GF-Vetro Satinato/Frosted Glass

FINISHING

The stainless steel is a ferrous alloy that, thanks to nickel and chromium, is highly corrosion-resistant.

Aluminium is used for the internal frames of the rattan furniture. It is previously treated and painted to better resist to weather conditions and then used to bear the synthetic fiber weave. Cleansed and powder coated tubular virgin aluminium structures are employed for an exposed use.

The polyethylenic based synthetic fibers used for the woven collections have unique UV ray resistant qualities, can be recycled and boast a good resistance to changes in temperature. Moreover they do not need any maintenance and are insensitive to fungus and parasites.

The glass tops have different edges according to the model and are available in transparent, satin or smoke-grey version.

The technical fabric Batyline® combines the elegance of the natural fibers to the performance of the industrial fabric.

The standard upholstered are made of low/high density polyurethane foam or flow-through foam on customer's request.

On customer request can be used coloured Sunbrella® fabrics or other brands.
