AT THE HEART OF SCANDINAVIA

Innovative design and skilled craftsmanship flourish here. Design, durability, quality and function are equally important to us. And to see the possibilities.

High-quality, environmentally friendly and cost-effective production.

We own our own production and we have control over the quality of everything we deliver. Together with local subcontractors, we minimize our environmental footprints.

Constant progress

Since its inception in 2004, the small family business has taken great steps in to the European design arena. We are curious, innovative and have a passionate interest in the changing needs of people. We realize your interior design projects. All the way from the heart of Scandinavia to the rest of the world.

REALIZE YOUR INTERIOR DESIGN

MEETING

“Everything is in constant motion. New starting point, changing needs, new paths to the goal.

Every day gives new opportunities. Function that moves with you. Wherever you go, we go.”

FORM

“Creativity grows from colors and shapes. Relationships are built through reflections, shadows and depths. Here you will find design furniture in the borderland between sculpture and function.

BASE

“Genuine craftsmanship and accurate. Storage that blends in. A wide range solves the needs in all situations. Classic, sustainable and cost-effective. Without the slightest hassle.”

ARKITYP / COTTAGE

During 2019 Mizetto was awarded with two German Design Awards in the category Excellent Product Design.

The jury statement for Arkityp -
“ The design translates the classic waste bin into an original dustbin design for offices that becomes an eye-catcher in any office setting thanks to its clear, elegant shape and fun details. A nice idea for an area that has unattractive dustbins.”

The jury statement for Cottage -
“ The sculptural and figural design of the metal construction provide a young and spontaneous look, giving spaces a distinctive identity. Storage room furniture with an interesting form that is also functional.”

Read more about Arkityp on page 20 and Cottage on page 26.

BISTRO / BIN THERE

Winner of Archiproducts Design Awards. Bin There and Bistro was selected by a panel of 50 among the most sought-after Architecture Studios, Designers, Editors, Photographers and Art Directors from all over the globe.

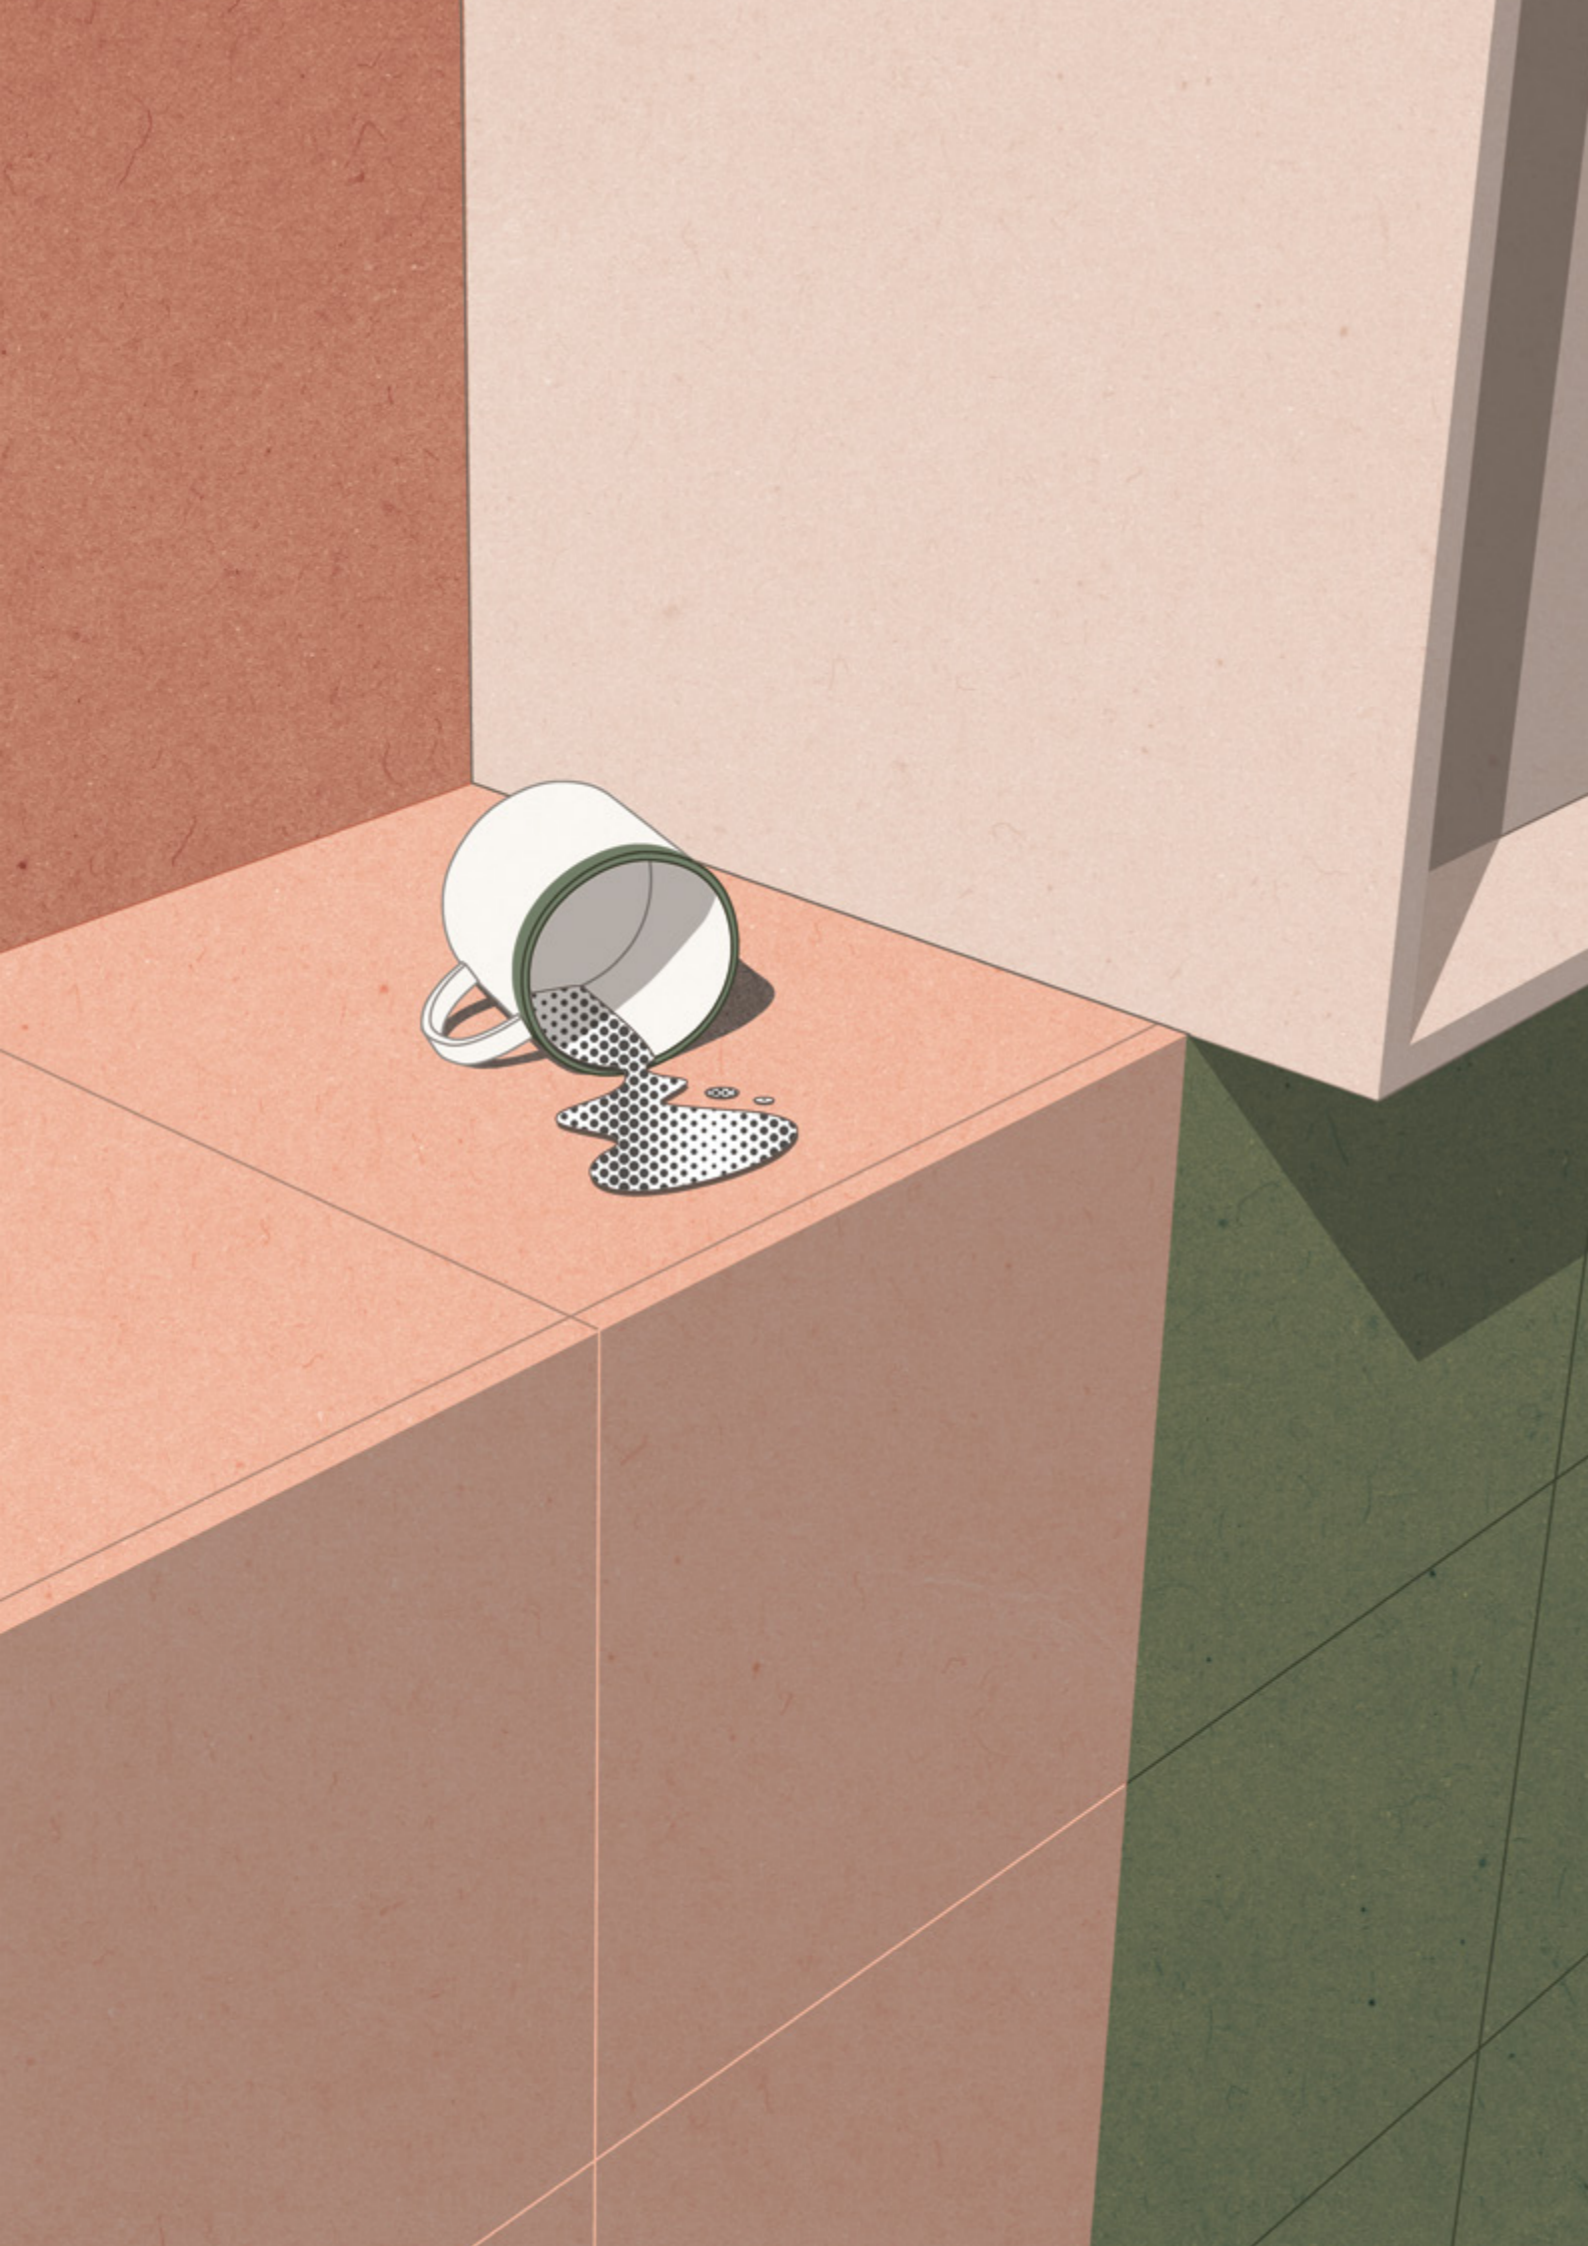

This highly-esteemed jury panel has rewarded pioneering collaborations and ground breaking products that stand out with it 's aesthetics, functionality and innovation.

The designers thoughts about Bistro -
"Bin there is more than just a waste bin, it's a bigger concept. We wanted to continue our strive to make waste bins beautiful. Our main inspiration has been the classic and elegant drink trolleys from the 30's and since we wanted the waste bins to be a part of a larger product family we decided to make a beautiful framework on which you can add your needs."

- ADDI

Man on the go - We come along

"Everything is in constant motion. New starting point, changing needs, new paths to the goal.

Every day gives new opportunities.
Function that moves with you.
Wherever you go, we go."

BIN THERE / BISTRO

Rolling elegance in the Urban Jungle

Bistro and Bin There takes you by surprise with their 1930's touch. The round receptacles with leather details and wooden lids, solve the recycling needs with elegance - Placed in the trolley or freestanding on their own.

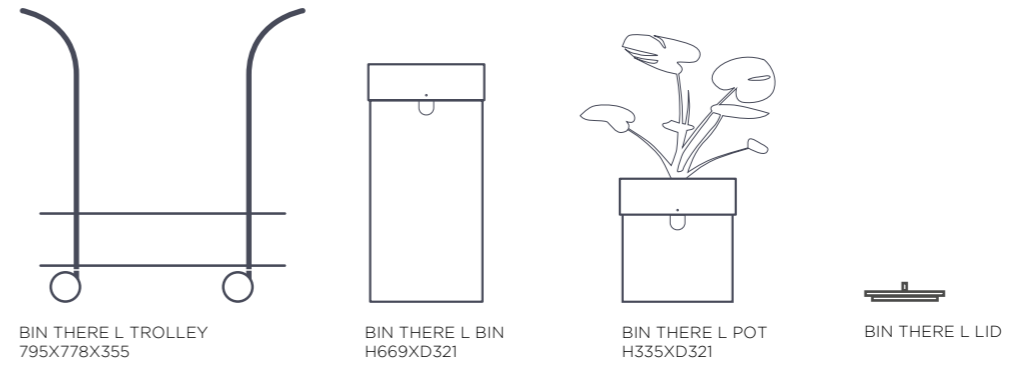

Without lids, Bin There become decorative flower pots for greenery, oxygen, texture, and life. Bring the jungle with you wherever you go!

The leather is made of the art of vegetable tanned leather.

Choice of tray and lid in white pigmented ash veneer or matt varnished oak veneer.

The volume of Bin L is 54 L and Bin S is 24 L.

ALSTER

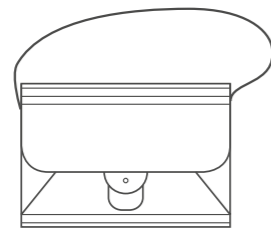

Hard cardboard meets soft leather. Alster to wear with pride.

In sharp folds, paper becomes hard. Within the encounter of laquered surface and soft natural leather, harmony unfolds.

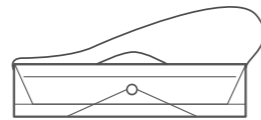

Together with Alstermo Bruk, we have developed a series that lifts the concepts of personal storage to a new level. With 100% recycled fiberboard, and leather tanned with substances from the plant kingdom, we are able to minimize the environmental impact. Durable lacquered cardboard bags

ARKITYP / ARKIV / ARKAD

Award Winning Arkityp.

With strong form, the recycling vessels move out of the shadows. Make room for the 2019 German Design Award Winner- Arkityp . Together, Arkityp, Arkiv, and Arkad, give an elegant and strong impression to create order in your recycling needs.

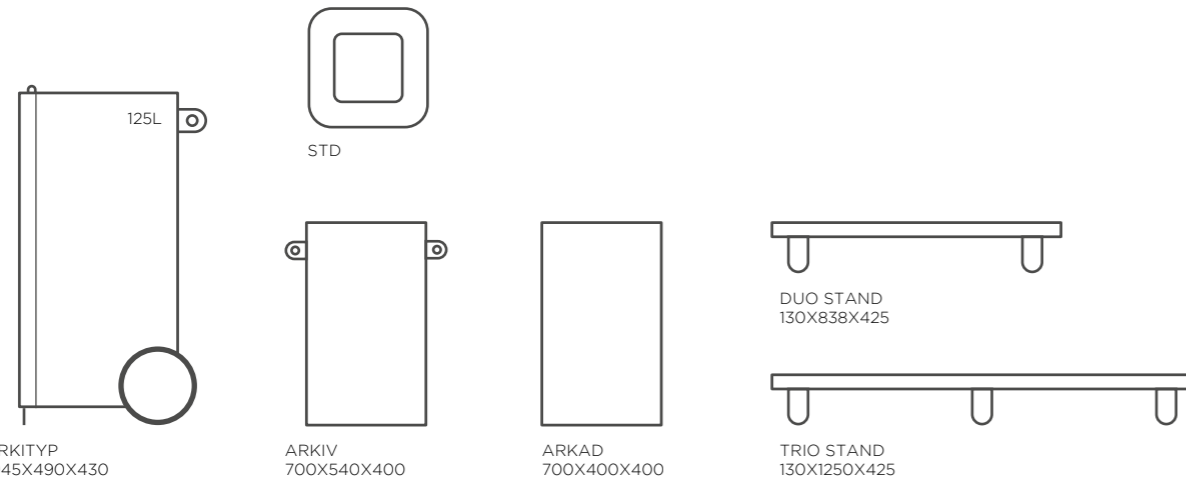

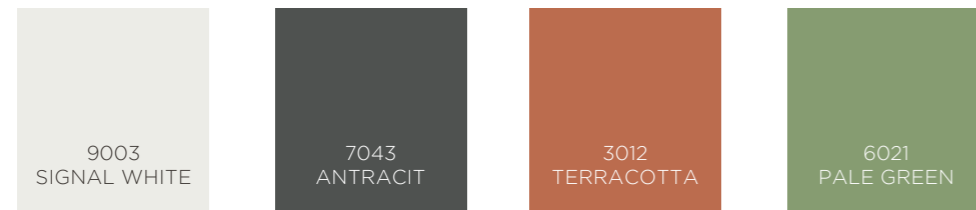

Typical function with atypical shape. Slightly roughened

lacquered aluminum with a matte finish. Wheels and soft handles in solid birch. The tight but natural looking design language.

Based on the archetype of a recycling vessel on wheels, they are modern sorting furnitures that do not need to be hidden away.

Arkityp adapted for standard bag 125L-140L and Arkiv/Arkad for standard bag of 125 L.

We stand for the form – You create the expression

“Creativity grows from colors and shapes. Relationships are built through reflections, shadows and depths. Here you will find design furniture in the borderland between sculpture and function.
Form your design.”

COTTAGE

Breathing Space – It is between the spaces we get room to breath

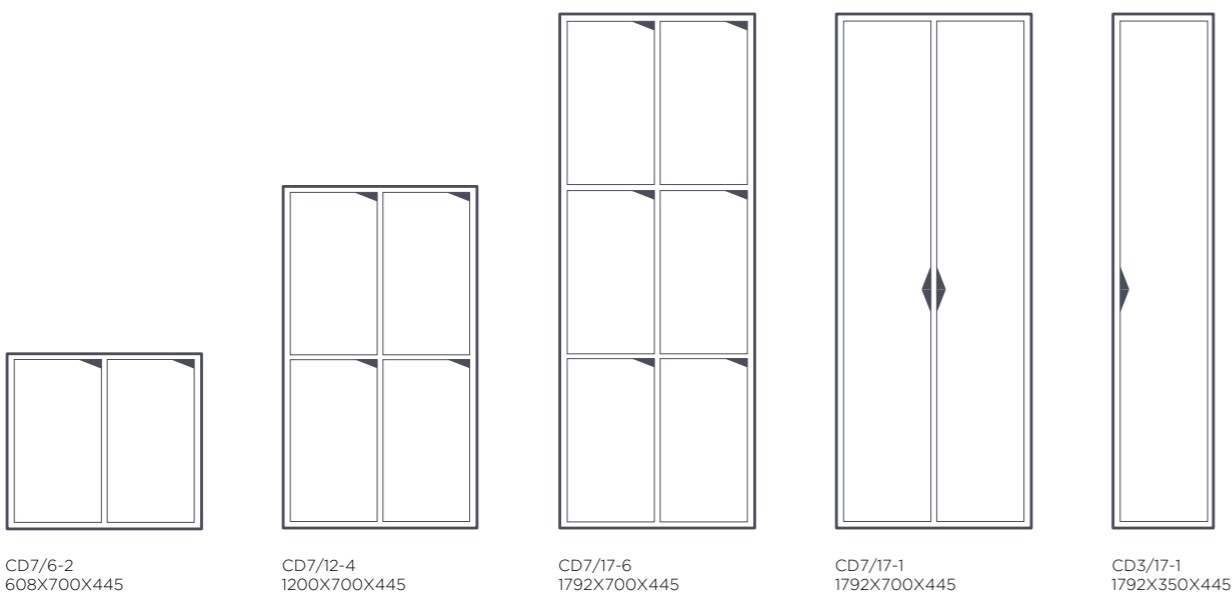

Cottage is an architectural storage; a hybrid between sculpture and function. With dynamic modules that can change use from one day to another, Cottage questions the traditional definition of storage.

A larger, shared cabinet for the entire team can be dedicated to any particular project. Your personal belongings get their own locker. By programming the lockable cabinets, they can be occupied by different users for different needs. The open modules furnish creativity. A structure with changing content, for all.

Frame in white MFC or in any NCS colour.

Cottage won 2019 German Design Award for excellent product design.

FRAME

Shadow play over the surface of inner depth.

Everything is about relationships: Shadow to light, surface to depth. The distance between us. With a deeper meaning. Frame gives life to movement in storage.

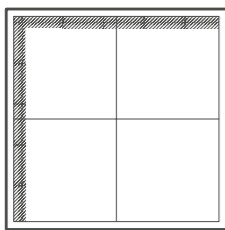

Create shadow play and dynamics with frames and modules where the square is the base. By combining different materials and colors, you can build voids, and create relationships.

Lightly chamfered edges, precisely joined corners, and high finish, contribute to an exclusive expression. But if you get really close, it is the surface you notice, among the shadows. Velvety...

To create the shadows the frames are made in two different depth (450 mm and 550 mm) but the inner dimensions are the same. Realize your interior project with frames and doors in MFC, ash- or oak veneer or any NCS color.

The locker will be customize with the locks for the requirements needed.

POSE

Rows, angles, and repetition.

Let your combination become a tactile parade or a winding maze.

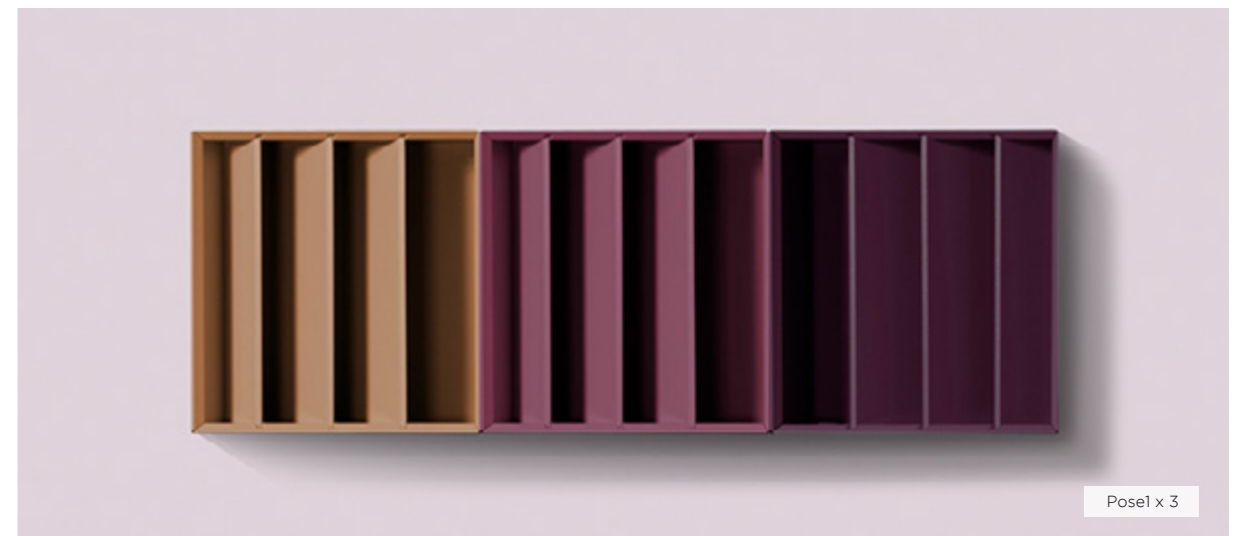

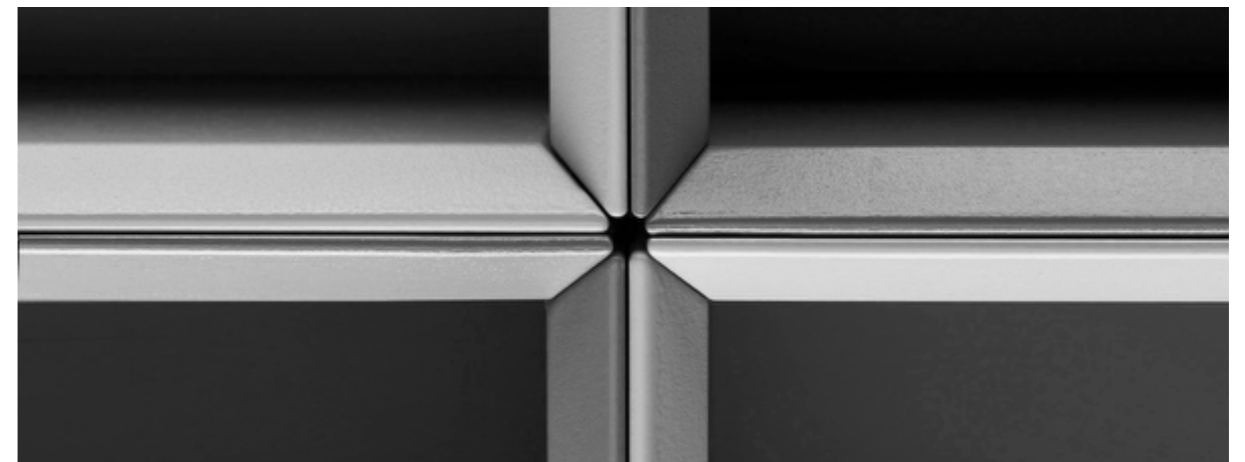

Pose is an exposure shelf that can be all that you need: mailbox, paper stock, and even bag storage. With high-quality craftsmanship, beveled edges, precise corners and small depth, Pose can become more of a creation than a furniture. Make your choice of three different sizes in all colors to be combined and varied, indefinitely.

EXHIBIT

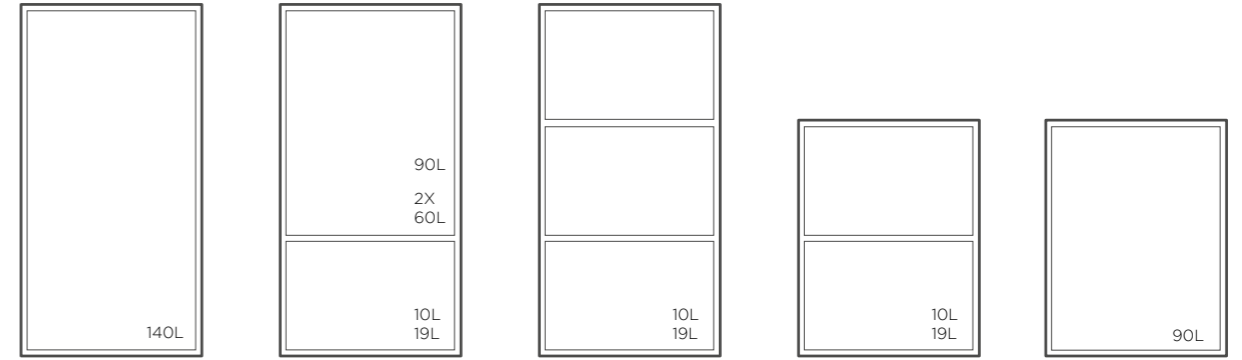

Playfully pleasing center piece.

Exhibit gives the hidden and undesired a central and attractive position. Sorting with artistic pride and well-preserved childishness.

With equal parts humor and seriousness, Exhibit highlights the sorting as if it is in the finest art exhibition. Here, both

the playfulness and the environmental consideration, are the focal points. Why not curate your own environmental exhibition in the middle of the room, with your units at the exact throwing-distance?

Exhibit are the sorting bins that can withstand exposure. Boxes and hatches have push openings and without handles, the appearance of a bare podium, is enhanced.

Personal storage - combination

PERSONAL STORAGE

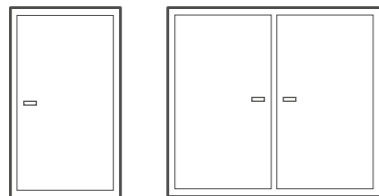

Our cabinets for personal storage can be combined to an almost infinite number of combinations. With this opportunity, we invite you to customize the office's unique needs, though from a standard concept. To fully exploit the potential of the series and our own production, you can easily integrate open wardrobes and sound-absorbing seating areas into the personal storage set-up.

Frame and doors in five different MFC or any NCS gives life and playfulness to the office.

Along with traditional key locking, our personal storage offers also mechanical code locks and RFID locks.

RECYCLING

Sustainable recycling for the planet and your needs.

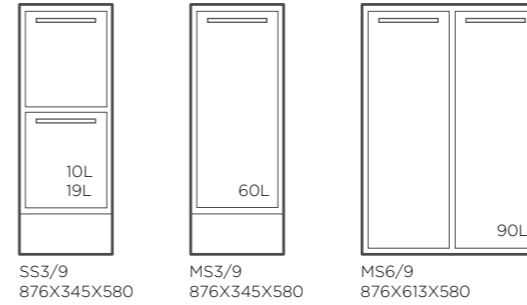

A Recycling station will only benefit when used. The Evolution series can be combined to suit both users and the environment, day after day, year after year. Recycling is obvious to us and an important part of minimizing our footprints. Environmental consideration is also a given part of the modern and sustainable office.

The modules contain different waste containers- from small containers to 190-liter return vessels. Together, we make sure that everything from aluminum foil to bubble plastic can be sorted and recycled. Every office has its needs, and we have the solution for you..

RECYCLING STATIONS

A Recycling station will only benefit when used. The Evolution series can be combined to suit both users and the environment, day after day, year after year.

The recycling stations in Evolution series can be combined endlessly. But you can also take a shortcut. In order to simplify your choice, we offer complete recycling stations with room for what's most important, regardless of the size of your space. Choose between white or black counter top.

Compliment and combine easily with other pieces from our range.

COPY STATIONS, COMBINATIONS

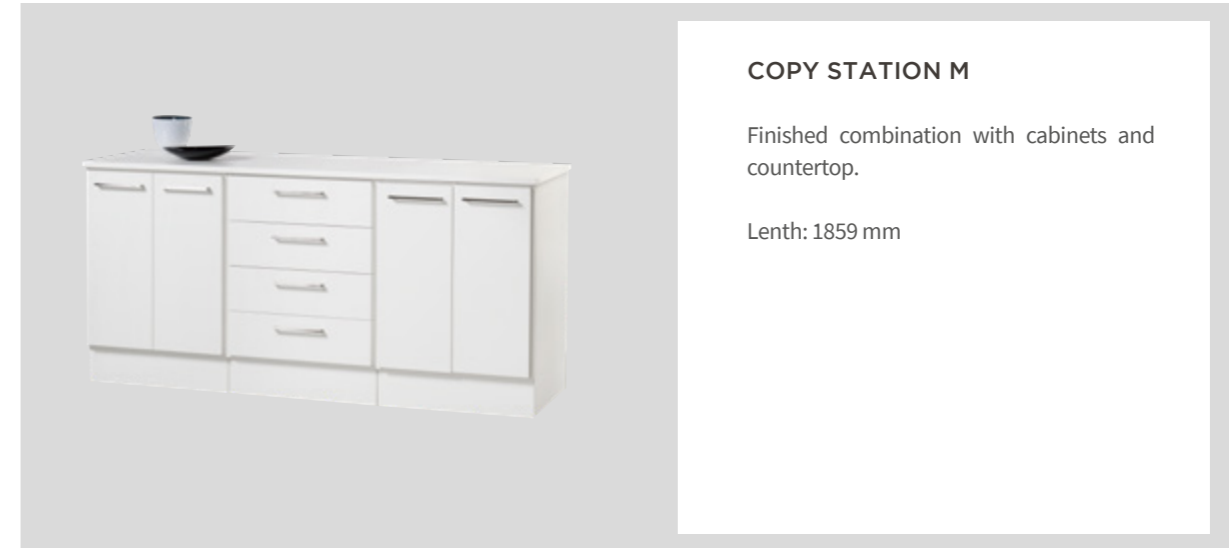

The Evolution series can be combined endlessly with your own custom copy space. But you can also take a shortcut.

In order to simplify your choice, we offer complete copy stations with room for what's most important, regardless of the size of your space. Storage in cabinets and drawers, post boxes, and the countertop are available in five ready-made combinations.

Frames and fronts in white MFC and countertop in white or black HPL.

Compliment and combine easily with other pieces from our range.

COTTAGE

FRAMES

All modules in the Cottage series have frames made of 16mm colored-lacquered MDF or directly laminated, matt, velvety chipboard (back in corresponding material, 12mm)

DOORS AND DRAWERS

Doors and drawer fronts are inside-hung and are made of 16mm thick colored lacquered mdf. All edges of doors are faceted 1mm at 45 degrees instead of radius to give a stricter impression.

LOCKS

The doors are equipped with cylinder locks as standard but are available with RFID (EM or Mifare) or other lock types as alternatives.

FRAME

SHALLOW FRAMES

All frames are produced in 19mm MDF or chipboard (back in corresponding material, 12mm) as standard. The frame is either veneered MDF (white pigmented ash or clear lacquered oak) or colored lacquered MDF, or directly laminated in white, matt, velvety surface

DOORS AND DRAWERS

Doors are made of 16mm veneered or colored-lacquered MDF (standard NCS S0500-N). All doors are full-covering, which means that they almost cover 100% of the frame. The doors are equipped with push opening as standard but are available with cylinder lock or RFID (Mifare) as an alternative.

LOCKS

Hinges for the doors are suited for the various locking systems (integrated damping and soft-closing for cylinder lock and push opening, and without damping or soft-close for RFID locks).

FRAME WORKS/PLINTHS

he frames (plinths, sofa-frame and free-standing cubes) are powder-coated as standard in RAL 9003 and RAL 7043. The plinths have adjustable feet.

MOUNTING

Cottage requires some self-assembly / joining (screw-in) of the various modules in place where the parts are not pre-drilled due to the possibilities of variation.

5 YEAR WARRANTY

DEEP FRAMES

The deeper frame of the Frame series is made with 45 degree mitered corners that have a 1 mm bevelled edge. All parts of the Frame series have bevelled edges instead of radius to give a stricter impression.

PLINTHS

The plinths have adjustable feets hidden behind the fronts.
